Using Audio CAPTCHA

The CAPTCHA challenge-response test requires that you accurately enter the text that is presented into the text box so that you can access your account. WebEx presents you with this security measure when you fail to sign in with the correct user credentials six times or when you choose to reset your password by selecting the **Forgot your password** link. As an alternative to entering what you see in the image, you can enter the text that you hear.

Note

Audio CAPTCHA is not supported if your system is configured for SSO or LDAP authentication.

Procedure

- Step 1** Navigate to the **Hear an audio challenge** link using the Tab or Shift+Tab keys and select Enter. The text will be read to you.
 - Step 2** Enter the text that you hear into the text box and select Enter.
 - Step 3** To hear the text again, navigate to the **Replay** link using Shift+Tab and select Enter. After entering the text correctly, you can proceed with signing in to WebEx.
