FHRP—Object Tracking List

The FHRP—Object Tracking List feature enhances the tracking capabilities to enable the configuration of a combination of tracked objects in a list and provides a flexible method of combining objects using Boolean logic.

Configuration Information

Configuration information is included in the "Configuring Enhanced Object Tracking" module of the *IP Application Services Configuration Guide*, Cisco IOS Release 12.4T, at the following URL:

http://www.cisco.com/en/US/docs/ios-xml/ios/ipapp/configuration/12-4t/iap-12-4t-book.html

The following sections provide information about this feature:

- Configuring a Tracked List and Boolean Expression
- Configuring a Tracked List and Threshold Weight
- Configuring a Tracked List and Threshold Percentage
- Configuring the Track List Defaults

For a complete list of features included in the "Configuring Enhanced Object Tracking" module, see the Feature Information Table located toward the end of the module.

Command Reference Information

Command reference information is included in the *Cisco IOS IP Application Services Command Reference*, at the following URL:

http://www.cisco.com/en/US/docs/ios-xml/ios/ipapp/command/iap-cr-book.html

New or Modified Commands

The following commands are new or modified for this feature:

- **show track**
- **threshold percentage**
- **threshold weight**
- **track list**
- **track resolution**
