

VMWI for SCCP FXS Ports in Cisco IOS

First Published: June 22, 2006

Last Updated: August 1, 2008

VMWI for SCCP FXS Ports in Cisco IOS provides visual message waiting indication capability on analog ports connected to Cisco Integrated Services Routers (ISRs). This feature also supports shared-line VMWI for analog phones in Cisco Unified Communications Manager and Cisco Unified Communications Manager Express.
