

NetFlow Reliable Export with SCTP

The NetFlow Reliable Export with SCTP feature adds the ability for NetFlow to use the reliable and congestion-aware SCTP when exporting statistics to a network management system that supports the NetFlow data export formats, such as a system running CNS NetFlow Collection Engine (NFC).

Configuration Information

Configuration information is included in the “Configuring Advanced Use of NetFlow for Analyzing Network Traffic Data” chapter in the *Cisco IOS NetFlow Configuration Guide*, Release 12.4T at the following URL:

- https://www.cisco.com/en/US/docs/ios/netflow/configuration/guide/nflow_export_sctp_ps6441_TSD_Products_Configuration_Guide_Chapter.html

Command Reference Information

Command reference information is included in the *Cisco IOS NetFlow Command Reference*, at the following URL:

- http://www.cisco.com/en/US/docs/ios/netflow/command/reference/nf_book.html
