Important Note

The CCO website no longer contains up-to-date Cisco technical documentation. It is in the process of being discontinued and updates are no longer being made to documentation at <http://www.cisco.com/univercd/home/home.htm>. Instead, please use the documentation on Cisco.com.

Finding Cisco Technical Documentation on Cisco.com

There are several ways you can navigate the new Cisco.com website to find documentation:

1. From [Cisco.com](#), click Documentation under Quick Links.
2. From [Cisco.com](#), point your cursor to Support. Click Select a Product.
3. From [Cisco.com](#), point your cursor to Support. Click a specific task (for example, Configure).

Once you find the product you are interested in, use the left-hand navigation to select the type of information you are interested in (for example, General Information).

To directly access the Product Selector tool to find Cisco technical documentation, please use the following URL:

<http://www.cisco.com/web/psa/products/index.html>

For an overview on how to navigate the documentation site on Cisco.com, please see the online demonstration at the following URL:
