Preface

This document describes the Cisco Prime Cable Provisioning Application Programming Interface (API) and Provisioning Web Services (PWS), which can be used to integrate Prime Cable Provisioning with Business Support Systems (BSS) and Operational Support Systems (OSS).

Audience

System integrators, network administrators, and network technicians can use this integration guide to integrate the various BSS and OSS with Prime Cable Provisioning. Only experienced users should use these instructions. To use the instructions in this guide, you must be familiar with:

- Prime Cable Provisioning architecture.
- Java programming.

Product Documentation

Note We sometimes update the printed and electronic documentation after original publication. Therefore, you should also review the documentation on http://www.cisco.com for any updates.

See the *Cisco Prime Cable Provisioning 5.0 Documentation Overview* for the list of Prime Cable Provisioning guides.

Related Documentation

See the *Cisco Prime Network Registrar 8.x Documentation Overview* for the list of Cisco Prime Network Registrar guides.

Obtaining Documentation and Submitting a Service Request

For information on obtaining documentation, submitting a service request, and gathering additional information, see *What's New in Cisco Product Documentation* at:
http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html.

Subscribe to *What's New in Cisco Product Documentation*, which lists all new and revised Cisco technical documentation, as an RSS feed and deliver content directly to your desktop using a reader application. The RSS feeds are a free service.
