

CHAPTER 17

Using Autodiscovery for L2 Services

All discovery steps are integrated in a discovery workflow, controlled from the Prime Fulfillment GUI. This is accessed in Prime Fulfillment through **Inventory > Physical Inventory > Discovery**. The following discovery features are supported:

- File-based device discovery is supported.
- Rules-based device role assignment is supported.
- Discovery progress messages and logs are viewable in the GUI to keep track of various discovery stages.
- Bulk creation of Provider, Customer, Site, and Region objects is available through an XML data file.

For detailed steps on using the autodiscovery feature in Prime Fulfillment, see [Chapter 2, “Inventory - Discovery.”](#)
