Manage Active Users and User Account

This chapter explains how to communicate with active users and manage the user in Cisco Prime Provisioning.

This chapter contains the following sections:

- Active Users, page 1-1
- User Account, page 1-1

Active Users

Choose **Administration> Active Users > Active Users** and follow these steps:

Step 1   After you choose **Administration> Active Users > Active Users**, an Active Users window appears that shows the currently logged users.

Step 2   If you have the privileges of **SysAdmin** or **UserAdmin**, you can disconnect one or more users. Check the check box next to each user you want to disconnect. Then click the **Disconnect** button at the bottom of the window.

⚠

Caution   The current login sessions for the disconnected users are terminated and their work is lost.

Step 3   To exit this list of all active users, choose another feature from the main product tabs.

User Account

Choose **Administration> Account > User Account** and follow these steps:

Step 1   After you choose **Administration> Account > User Account**, a User Account window appears that shows all the users.

Step 2   Click **Edit** to change the password, permissions, personal information, and user preferences.

Step 3   Click **Save** to save the changes or click **Cancel**.
