January 18. 2013

These Release Notes describe the updates and fixes in versions 1.0.1.x of the Cisco Small Business RV215W firmware.

Contents

This document includes the following topics:

- **Cisco Small Business RV215W Firmware Changes for Version 1.0.1.1**
- **Related Information**

Cisco Small Business RV215W Firmware Changes for Version 1.0.1.1

Caveats in Firmware Version 1.0.1.1

SNMPv3 Setting User noAuthNoPriv by using XML Requires Authorization (CSCub87985S3P3)

SNMPv3 `set user noAuthNoPriv` by using XML requires authorization information that makes a user an authNoPriv user instead of a noAuthNoPriv SNMPv3 user. In other words, the user created by using noAuthNoPriv should not require authmethod or authpassword parameters.

Workaround: None.

SNMPv3 Privacy Algorithm does not change to DES by using XML (CSCub87686)

SNMPv3 privacy algorithm cannot be changed to DES by using XML.

Workaround: To change the privacy algorithm to DES, use the web-based configuration utility.

Bonjour Advertisement Seen on Non-AP Management VLAN (CSCub08689)

A device connected wirelessly to a Bonjour–enabled VLAN receives Bonjour advertisement broadcasts even though the access point is configured to communicate Bonjour information on a different VLAN.

Workaround: None.
