

Release Notes for Hot Patch 2 for Cisco IronPort AsyncOS 7.6.1 for Email Security

Published: June 13, 2012

Contents

This document contains information about Hot Patch 2 for AsyncOS 7.6.1 for Email Security. This document includes the following sections:

- [Upgrade Paths, page 1](#)
- [Resolved Issues, page 2](#)
- [Known Issues, page 2](#)
- [Additional Information, page 2](#)
- [Service and Support, page 2](#)

Upgrade Paths

You can upgrade to release 7.6.1-025 from the following versions:

- 7.6.0-444
- 7.5.2-014
- 7.6.1-022
- 7.6.1-024

Americas Headquarters:
Cisco Systems, Inc., 170 West Tasman Drive, San Jose, CA 95134-1706 USA

Resolved Issues

The following issues are resolved in this release:

Table 1 *Resolved Issues in this release of AsyncOS for Email Security*

Defect ID	Description
86483	<p>Fixed: Mail Delivery to Destination Goes Offline After Over 5000 Messages to the Same Destination Are Queued</p> <p>In the previous versions of AsyncOS 7.6, mail delivery to a destination may go offline if the appliance had to queue over 5000 messages for that destination before it could delivery them. This could happen, for example, if an organization's mail servers go offline for maintenance and the appliance has to queue messages until the servers are back online. When delivery resumed, the appliance may have only delivered a few messages. The remaining messages for that destination would not be delivered.</p> <p>This issue has been resolved and queued messages will be delivered.</p>

Known Issues

This hot patch release has the following known issues:

Table 2 *Known Issues in this release of AsyncOS for Email Security*

Defect ID	Description
83830	<p>AsyncOS 7.6.1 for Email Hot Patch 2 Includes Expired Version of Sophos Anti-Virus</p> <p>The version of Sophos Anti-Virus included in this hot patch release has expired. You will receive an alert notifying you of the expired version after you upgrade your appliance to this build.</p> <p>The appliance will automatically download the latest version of Sophos Anti-Virus from the upgrade server after the upgrade is complete. There will be little to no impact on anti-virus scanning performance.</p>

Additional Information

For additional information about Cisco IronPort AsyncOS 7.6.1 for Email Security, see the Release Notes at http://www.cisco.com/en/US/products/ps10154/prod_release_notes_list.html.

Service and Support

You can request our support by phone, email, or online 24 hours a day, 7 days a week.

During customer support hours (24 hours per day, Monday through Friday excluding U.S. holidays), an engineer will contact you within an hour of your request.

To report a critical issue that requires urgent assistance outside of our office hours, please contact Cisco IronPort using one of the following methods:

U.S. toll-free: 1(877) 641- 4766

International: <http://cisco.com/web/ironport/contacts.html>

Support Portal: <http://cisco.com/web/ironport/index.html>
