Release Notes for Hot Patch 2 for Cisco IronPort AsyncOS 7.9.0 for Security Management

Contents

Upgrade Paths

You can upgrade to release 7.9.0-201 from the following releases:

- 7.9.0-107

Resolved Issues

The following issues are resolved in this release:

Table 1   ***Resolved Issues***

Defect ID	Description
Resolved in HP2	
87072	**Delay in importing reporting archives from Email Security appliances** Previously, this caused a performance decrease when many Email Security appliances were associated with the Security Management appliance. This delay no longer occurs.
Resolved in HP1	
85724	**Proxy Server settings for upgrade server are incorrect when selected in CLI** The proxy server settings for the upgrade server are now correct.

Additional Information
