About this Guide

This guide describes how to install the Cisco AnyConnect Secure Mobility client image onto the central-site ASA, configure AnyConnect for deployment to remote user computers, configure connection profiles and group policies on ASDM for AnyConnect, install AnyConnect onto mobile devices, and monitor and troubleshoot AnyConnect connections.

Throughout this guide, the term "ASA" applies to all models in the Cisco ASA 5500 series (ASA 5505 and higher).

Audience

This guide is for administrators who perform any of the following tasks:

- Manage network security
- Install and configure ASAs
- Configure VPNs

Conventions

This document uses the following conventions:

Convention	Indication
bold font	Commands and keywords and user-entered text appear in **bold** font.
italic font	Document titles, new or emphasized terms, and arguments for which you supply values are in *italic* font.
[ ]	Elements in square brackets are optional.
{ x | y | z }	Required alternative keywords are grouped in braces and separated by vertical bars.
[x | y | z]	Optional alternative keywords are grouped in brackets and separated by vertical bars.
string	A nonquoted set of characters. Do not use quotation marks around the string or the string will include the quotation marks.
`courier` font	Terminal sessions and information the system displays appear in `courier` font.
< >	Nonprinting characters such as passwords are in angle brackets.

[ ]	Default responses to system prompts are in square brackets.
!, #	An exclamation point (!) or a pound sign (#) at the beginning of a line of code indicates a comment line.

Note Means *reader take note*.

Tip Means *the following information will help you solve a problem*.

Caution Means *reader be careful*. In this situation, you might perform an action that could result in equipment damage or loss of data.

Timesaver Means *the described action saves time*. You can save time by performing the action described in the paragraph.
