Preface

The Cisco Compliance Solution for PCI DSS 2.0 secures credit card data. It has been validated in Cisco labs and assessed for compliance by a PCI Qualified Security Assessor (QSA) audit partner, Verizon Business. This enterprise architecture contains Cisco and partner products that holistically address customer business problems related to compliance and security.

This guide provides simplified design recommendations for PCI 2.0. For step-by-step configurations and implementation guidance for PCI 2.0, refer to the *Cisco Compliance Solution for PCI DSS 2.0 Design and Implementation Guide*.
