About the Cisco TelePresence Touch 12

The Cisco TelePresence Touch 12 is a touch-panel LCD device that you use during telepresence meetings.

Note

The examples in this document show the display screens in English. The Touch 12 offers additional language support. Your system administrator configures these languages for your system. For configuration information and for the current list of additional languages, refer to the “[Installing Language Versions](#)” chapter of the *Cisco Unified Communications Manager Configuration Guide for the Cisco TelePresence System*.

[Figure 1](#) shows the Cisco TelePresence Touch 12 with the day’s scheduled meetings.
