

Activate Your Device

To activate your device, follow your service provider-specific instructions.

Confirm Your Success

Your device is configured and working properly when:

- The 3G light on your DPH153 3G Small Cell is solid green.
- You are able to place a phone call using your DPH153 3G Small Cell.

Contact your service provider for additional details.

Having Trouble?

1. Is your Internet connection up and running and connected?
2. Is your DPH153 3G Small Cell indicator solid green?
3. Contact your service provider if you need help.

Back Panel

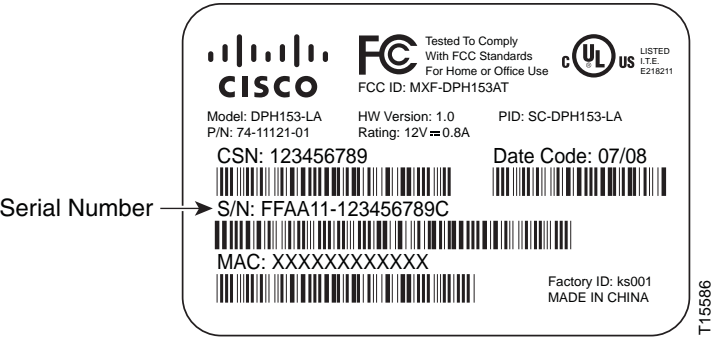

Before You Begin

- Plan your installation location – your device should be:
 - At least one foot away from other wireless broadcasting devices to avoid possible interference.
 - Where you can connect your DPH153 3G Small Cell to your Internet equipment.
- Equipment and setup time may vary. Contact your service provider for instructions.

Serial Number (S/N) Tip

Write down your DPH153 3G Small Cell’s serial number; you’ll need it for online activation and future reference. It can be found on the bottom of the device or on the box label.

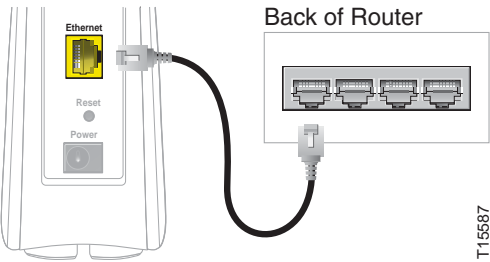

Serial # (S/N)

Connect Your Device to the Internet

Connect the yellow ethernet cable from the “Ethernet” port on your DPH153 3G Small Cell to your router.

Power On Your Device

Connect your DPH153 3G Small Cell to a power outlet with the AC power adapter.

The Power light on the front of the device will come on immediately.
