Preface

The Cisco Media Experience Engine (MXE) 3500 is a network appliance that runs Cisco MXE 3500 Release 3.3 software. The Cisco MXE 3500 with Release 3.3 delivers a comprehensive set of media transformation services to discover, connect, record, enrich, and deliver video and other forms of rich media. These services make video content findable, accessible, and easy to consume anytime, anywhere, on any device.

This guide provides an overview of the Cisco MXE 3500 Release 3.3 software system components, detailed instructions for performing administration tasks, and detailed descripiton of the Cisco MXE 3500 web user interface (UI).

Conventions

This document uses the following conventions:

Note Means *reader take note*.

Tip Means *the following information will help you solve a problem*.

Caution Means *reader be careful*. In this situation, you might perform an action that could result in equipment damage or loss of data.

Timesaver Means *the described action saves time*. You can save time by performing the action described in the paragraph.

Warning **Means *reader be warned*. In this situation, you might perform an action that could result in bodily injury.**

Related Documentation
