Search Partitions

Table 9-1 **Search Partitions Page**

Field	Description
Limit Search To	(Applicable to standalone configurations only.) Select the criteria by which to limit the display of search results: • All—Display all search results, regardless of the Cisco Unity Connection location to which they belong. • Location—Display only results that belong to a particular Connection location. When you select this option, choose the name of the location from the Where Name Is list.
Name	(Display only) The name of the object. Click the Name to go to the specific page for that object.
Delete Selected	To delete a partition, check the check box to the left of the display name, and click Delete Selected. You can delete multiple partitions at once.
Add New	To add a partition, click the Add New button. A new page opens, on which you enter data applicable to the new partition.

New Search Space

Table 9-5 *New Search Space Page*

Field	Description
Name	Enter a descriptive name for the search space.

See Also

- The “[Managing Search Spaces](#)” section in the “Managing Partitions and Search Spaces” chapter of the *System Administration Guide for Cisco Unity Connection*.

Edit Search Space

Table 9-6 *Edit Search Space Page*

Field	Description
Name	Enter a descriptive name for the search space.
Description	Enter a description for the search space.
Assigned Partitions	The ordered list of partitions that define the search space. To change the order of partitions in the Assigned Partitions list, click the name of the partition to move, then click the up or down arrow to the right of the list. To remove a partition from the Assigned Partitions list, click the name of the partition in the list, then click the down arrow below the list.
Unassigned Partitions	The list of partitions that are not part of the search space. To add a partition to the list of partitions assigned to the search space, click the name of the partition in the Unassigned Partitions list, then click the up arrow above the list.
