INDEX

A

addressing
- intersite networking problems with Cisco Unity 20-41
- intrasite or intersite networking problems 20-39
- networked messages 20-39
- to local recipients 19-33
- VPIM messages and blind addressing, problems 20-43
- VPIM messages to specific recipients, problems 20-42

Apache Tomcat
- and CPCA errors 26-92
- and Web Inbox errors 27-98
- service, verifying 26-94, 27-101

Apple Safari, configuring for Media Master 28-105

audio quality
- Check Telephony Configuration test 11-95
- choppy audio 11-96
- garbled prompts 11-97
- garbled recordings 11-96
- low volume of recordings 11-98
- prompts with jitter 11-97
- traces 11-99

authentication, troubleshooting when Cisco Unified CM authentication is configured for ports 9-79

B

blind addressing, VPIM 20-43

busy greeting, does not play 15-120

C

calendar integrations
- Connection 8.0 6-38
- Connection 8.5 and later 8-63

call control 9-72

Call Transfer Rule Tester 25-82

call transfers, fail for Cisco Unified CM Express SCCP integrations 15-121

changing passwords, effect on IMAP email client access to Connection 17-17

Cisco PCA
- access problems 14-112, 14-114
- Apache Tomcat errors 26-92
- error messages 26-91
- locked user account 26-91
- managing security alerts when using SSL connections 14-113
- saving changes, problems 14-114
- sign-in account errors 26-92
- Tomcat service, verifying 26-94

Cisco Unified Real-Time Monitoring Tool (RTMT) 3-19

Cisco Unified Serviceability 3-19

Cisco Unity Diagnostic Tool
- voice-recognition macro trace logs 24-76
- voice-recognition micro trace logs 24-76

Cisco Utilities Database Link for Informix 3-20

Cisco Voice Technology Group Subscription tool 3-19

Connection cluster
- Add New button disabled 13-109
- both servers have Primary status 13-107
- cannot access alert logs when publisher server is not functioning 13-110
- cluster does not function correctly 13-108

server does not handle calls 13-105

Connection Serviceability 3-18

Connection SNMP Agent service, confirming configuration 30-115

cross-server sign-in

about 20-51

home server cannot be reached 20-52

user ID and PIN not accepted 20-52

users do not hear PIN prompt 20-51

cross-server transfers

about 20-51

call cannot be completed 20-53

callers prompted to leave a message 20-53

callers transferred to wrong user 20-53

CUDLI 3-20

Custom Key Map tool 23-68

D

Database Proxy 3-20

delayed messages 16-124

diagnostics

collecting from ViewMail for Outlook 17-23

IMAP client problems 8-63, 17-23

SpeechView transcriptions 18-30

directory handler 19-32

disappearing messages 16-124

E

emails, accessing in an external message store 6-33

encryption, troubleshooting when Cisco Unified CM encryption is configured for ports 9-79

English-United States language unavailable 12-101

error messages for Cisco PCA 26-91

error messages for Web Inbox 27-97

Exchange calendar, accessing calendar information 6-38

external message store, access to emails 6-33

external services

access to emails in an external message store 6-33

calendar integration 6-38

diagnostic tool 6-43

personal call transfer rules (PCTRs) 6-43, 8-69

Test button, diagnostic tool 6-43

F

fax

delivery to fax machine 5-27

delivery to users 5-25

notifications by Connection 5-29

quality 5-31

receipts 5-29

full-mailbox warnings 16-123

G

Grammar Statistics tool, accessing 3-17

greetings, busy greeting does not play 15-120

H

Help menu, long pauses when listening to 23-69

hostname entered does not match the remote site certificate 20-37

I

IMAP client, messages not received 17-18

IMAP email access to Connection

overview 17-17

with LDAP configured 17-18

without LDAP configured 17-17

integration

call control 9-72

calls not answered 9-83

calls not transferred to the correct greeting 15-117

calls to Cisco Unity Connection fail 9-72

Check Telephony Configuration test 9-71
Cisco Unified CM authentication or encryption 9-79
Cisco Unified CM through SCCP or SIP trunk 9-79
IP address, changing for Cisco Unified CM server 9-75
not answering calls 9-73
not answering some calls 9-73
port do not register 9-75, 9-77
ports repeatedly disconnect 9-75, 9-77
Remote Port Status Monitor 9-71
intersite networking, linking sites 20-36

K

key mapping problems 23-68
key presses (touchtones) 14-111

L
