

INDEX

A

administrative accounts
 summary of purposes [4-1](#)
Application Administration account [4-1](#)
authentication rules [5-5](#)

C

call signaling, modification threat [3-1](#)
Cisco PCA, securing access to Cisco Unity Connection [8-1](#)
Cisco Unified CM
 call signaling modification [3-1](#)
 identity theft [3-2](#)
 man-in-the-middle attacks on connection to Cisco Unity Connection [3-1](#)
 media (RTP) stream modification [3-2](#)
 network traffic sniffing (eavesdropping) [3-1](#)
Connection service ports [1-1](#)

E

eavesdropping Cisco Unified CM connections [3-1](#)

I

identity theft
 Cisco Unified CM server [3-2](#)
 Cisco Unity Connection voice messaging port [3-2](#)
IMAP clients
 securing access to Cisco Unity Connection [8-1](#)
 security options [9-6](#)
IP phones, network traffic sniffing (eavesdropping) [3-1](#)

M

mailbox-size quotas, customizing for users or templates [9-4](#)
man-in-the-middle attacks for Cisco Unified CM connections [3-1](#)
Media Master, preventing users from saving messages [9-4](#)
media stream, modification threat [3-2](#)
messages
 shredding files for secure deletes [9-5](#)
message security
 option to disable saves in Media Master [9-4](#)
 overview of options [9-1](#)
 security options for IMAP client access [9-6](#)
 sensitivity options for users and unidentified callers [9-1](#)

N

network traffic sniffing Cisco Unified CM connections [3-1](#)

O

Operating System Administration account [4-1](#)

P

passwords
 changing for Connection web application access [5-3](#), [6-3](#)
 unique and secure, assigning [5-2](#)
 used to access Connection applications [5-2](#), [6-1](#)
PINs

changing Connection phone PINs [5-4, 6-3](#)
unique and secure, assigning [5-2](#)
used to access Connection applications [5-2, 6-1](#)
ports, voice messaging, and identity theft [3-2](#)

Q

quotas for mailboxes, customizing for users or templates [9-4](#)

R

restriction tables, using to prevent toll fraud [2-1](#)
RTP stream, modification threat [3-2](#)

S

sec-01-1 [1-1](#)
secure deletes, shredding message files for [9-5](#)
securing Cisco PCA and IMAP client access to Cisco Unity Connection [8-1](#)
security
 controlling access, distribution, and storage of voice messages [9-1](#)
 IMAP client [9-6](#)
 user and unidentified caller messages [9-1](#)
server, identity theft [3-2](#)
shredding message files for secure deletes [9-5](#)
SSL certificate, using to secure Cisco PCA and IMAP client access to Cisco Unity Connection [8-1](#)

T

TCP ports
 used for inbound connections [1-1](#)
 used for outbound connections [1-6](#)
toll fraud [2-1](#)

U

UDP ports
 used for inbound connections [1-1](#)
 used for outbound connections [1-6](#)

V

voice messaging ports and identity theft [3-2](#)
