

## INDEX

### A

authentication

    See also device authentication

    See also digest authentication

    interactions **1-5, 1-6**

    overview **1-14**

    restrictions **1-5**

    with CTI/JTAPI/TAPI applications **11-2**

authentication string **6-2, 11-4**

    entering on phone **6-9**

    finding phones using **6-8**

authorization **1-14**

    configuration settings (table)

        for SIP trunk **14-3**

    configuring for SIP trunk **14-2**

    interactions **1-6**

    overview **1-14**

### B

barge

    encryption restrictions with **1-11**

### C

Certificate Authority Proxy Function (CAPF)

    activating service **6-5, 11-8**

    authentication string **6-2**

        entering on phone **6-9**

    CAPF service **3-4**

    configuration checklist (table) **6-4**

    configuration settings (table)

    for CTI/JTAPI/TAPI applications **11-12**

    for phones **6-7**

    configuring an application user or end user CAPF profile **11-10**

    configuring in Cisco Unified CallManager Serviceability **6-4**

    deleting an application user or end user CAPF profile **11-13**

    finding an application user or end user CAPF profile **11-10**

    finding phones using LSC or authentication string **6-8**

    generating CAPF report **6-8**

    installing **1-11**

    interactions and requirements **6-3**

        with CTI/JTAPI/TAPI applications **11-5**

    interaction with Cisco Unified IP Phone **6-2**

    overview **6-2**

        for CTI/JTAPI/TAPI **11-4**

    updating service parameters **6-6**

        for CTI/JTAPI/TAPI **11-9**

    using for phone certificate operations **6-6**

    viewing certificate operation status for application user or end user **11-15**

certificates

    Internet Explorer certificate **2-2**

    Netscape certificate **2-5**

    types **1-12**

Cisco Unified IP Phone

    See also encrypted configuration file

    authentication string

        entering on phone **6-9**

    configuration checklist (table) for security **4-2**

    configuration settings (table)

        for CAPF **6-7**
