

Preface

Revised: June 08, 2010, OL-19142-02

This document provides design considerations and configuration guidelines for deploying IPv6 in a Cisco Unified Communications System.

This document should be used in conjunction with other documentation available at the following locations:

- For more information about the Cisco Unified Communications System:
<http://www.cisco.com/go/unified-techinfo>
<http://www.cisco.com>
- For more information about Cisco Unified Communications Manager (Unified CM):
http://www.cisco.com/en/US/products/sw/voicesw/ps556/tsd_products_support_series_home.html
<http://www.cisco.com>
- For other Cisco Unified Communications Solution Reference Network Design (SRND) documents:
<http://www.cisco.com/go/ucsrnd>
- Other Cisco design guides:
<http://www.cisco.com/go/designzone>

Note

Unless stated otherwise, the information in this document applies to Cisco Unified Communications Manager (Unified CM) 8.x releases.

Revision History

This document may be updated at any time without notice. You can obtain the latest version of this document online at:

<http://www.cisco.com/go/ucsrnd>

Visit this Cisco.com website periodically and check for documentation updates by comparing the revision date (on the front title page) of your copy with the revision date of the online document.

The following table lists the revision history for this document.

Revision Date	Comments
June 08, 2010	Document revised to add a new IPv6 deployment model introduced with Cisco Unified Communications Manager 8.0.
May 22, 2009	Initial release of this document.

Obtaining Documentation, Obtaining Support, and Security Guidelines

For information on obtaining documentation, obtaining support, providing documentation feedback, security guidelines, and also recommended aliases and general Cisco documents, see the monthly *What's New in Cisco Product Documentation*, which also lists all new and revised Cisco technical documentation, at:

<http://www.cisco.com/en/US/docs/general/whatsnew/whatsnew.html>

Cisco Product Security Overview

This product contains cryptographic features and is subject to United States and local country laws governing import, export, transfer and use. Delivery of Cisco cryptographic products does not imply third-party authority to import, export, distribute, or use encryption. Importers, exporters, distributors and users are responsible for compliance with U.S. and local country laws. By using this product you agree to comply with applicable laws and regulations. If you are unable to comply with U.S. and local laws, return this product immediately.

Further information regarding U.S. export regulations may be found at:
