

# **About This Guide**

#### Revised: November 21, 2013, OL-26031-06

This section describes the objectives, audience, organization, and conventions of this software command reference. It contains the following sections:

- Document Revision History, page vii
- Objectives, page vii
- Audience, page viii
- Conventions, page viii
- Related Documentation, page ix
- Obtaining Documentation and Submitting a Service Request, page ix

#### **Document Revision History**

The Document Revision History table below records technical changes to this document.

| Document<br>Number | Date              | Change Summary   |
|--------------------|-------------------|--|
| OL-26031-01        | October 25, 2011  | Initial release of the document.                                       |
| OL-26031-02        | August 16, 2012   | Updated the document.  |
| OL-26031-03        | February 12, 2013 | Updated the document.  |
| OL-26031-04        | March 28, 2013    | Updated the document.  |
| OL-26031-05        | July 31, 2013     | Updated the document. Added <b>asr901-platf-multi-nni-cfm</b> command. |
| OL-26031-06        | November 21, 2013 | Updated the document.  |

#### **Objectives**

This guide explains how to use the Command Line Interface on the Cisco ASR 901 Series Aggregation Services Router.

## Audience

This publication is for the person responsible for configuring the router. This guide is intended for the following audiences:

- · Customers with technical networking background and experience
- System administrators who are familiar with the fundamentals of router-based internetworking, but who may not be familiar with Cisco IOS software
- System administrators who are responsible for installing and configuring internetworking equipment, and who are familiar with Cisco IOS software

### **Conventions**

This document uses the following conventions:

| Convention         | Indication  |  |
|--------------------|---|--|
| <b>bold</b> font   | Commands and keywords and user-entered text appear in <b>bold</b> font.   |  |
| <i>italic</i> font | Document titles, new or emphasized terms, and arguments for which you supply values are in <i>italic</i> font.              |  |
| []                 | Elements in square brackets are optional.   |  |
| {x   y   z }       | Required alternative keywords are grouped in braces and separated by vertical bars.   |  |
| [ x   y   z ]      | Optional alternative keywords are grouped in brackets and separated by vertical bars.                                       |  |
| string             | A nonquoted set of characters. Do not use quotation marks around the string or the string will include the quotation marks. |  |
| courier font       | Terminal sessions and information the system displays appear in courier font.   |  |
| < >                | Nonprinting characters such as passwords are in angle brackets.   |  |
| [ ]                | Default responses to system prompts are in square brackets.   |  |
| !, #               | An exclamation point (!) or a pound sign (#) at the beginning of a line of code indicates a comment line.                   |  |

Means reader take note.

Means the following information will help you solve a problem.

Tip

Means *reader be careful*. In this situation, you might perform an action that could result in equipment damage or loss of data.

L

Means *the described action saves time*. You can save time by performing the action described in the paragraph.

Means *reader be warned*. In this situation, you might perform an action that could result in bodily injury.

## **Related Documentation**

The following list includes documentation related to the product by implementation.

- Cisco ASR 901 Series Aggregation Services Router Software Configuration Guide
- Cisco ASR 901 Series Aggregation Services Router Hardware Installation Guide
- Regulatory Compliance and Safety Information for the Cisco ASR 901 Series Aggregation Services Router
- Release Notes for Cisco ASR 901 Series Aggregation Services Router for Cisco IOS Release
