

## How to Request a 30-Day Free Trial License for Cisco IOS Content Filtering

Cisco IOS® Content Filtering is a subscription-based hosted web security solution. Access to millions of URLs as part of our reputation and productivity categories help ensure prevention from malicious traffic. Cisco IOS Content Filtering has an easy-to-renew yearly subscription coupled with the router. No individual user licenses are required. A 30-day free trial license is also available. Subscription provides access to our URL database, with content filtering policies set on the router.

Here are the steps to obtain the 30-day free trial license:

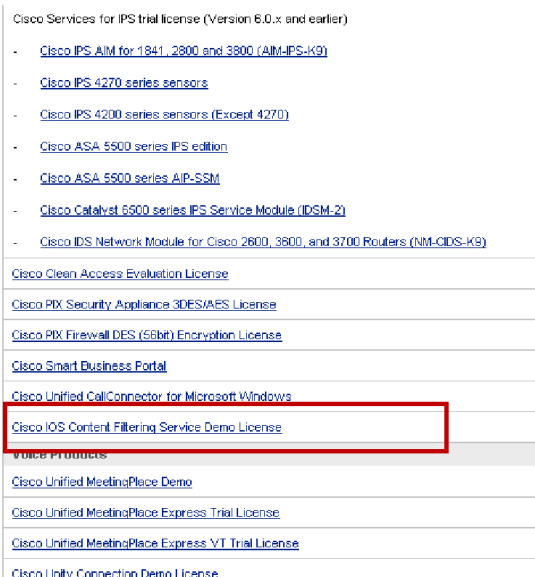

1. Go to the Product License Registration page: <http://www.cisco.com/go/license>. A valid Cisco account is required to login to the Product License Registration page.

2. Click on the link for available licenses under the “Licenses Not Requiring a PAK” box for the 30-day free trial license.

3. In the Select License page, click “Cisco IOS Content Filtering Service Demo License.”

4. Retrieve the Product ID and Serial Number from the router by issuing the command “sh diag” in the router’s CLI. Here’s an example:

```
Router#sh diag
Slot 0:
C2801 2FE 4SLOT Mainboard Port adapter, 6 ports
Port adapter is analyzed
Port adapter insertion time 1d12h ago
EEPROM contents at hardware discovery:
Chassis MAC Address      : 001b.2ab2.f95e
MAC Address block size   : 34
PCB Serial Number        : F0C11073C1U
Hardware Revision        : 6.0
Part Number              : 73-8190-06
Board Revision           : B0
Top Assy. Part Number    : 800-23435-04
Deviation Number         : 88033
Fab Version              : 04
CLEI Code                : IPM7S00CRA
RMA Test History         : 00
RMA Number               : 0-0-0-0
RMA History              : 00
Product (FRU) Number     : CISC02801
Version Identifier       : 003
Processor type           : 06
Chassis Serial Number    : FTX1111Z15F
EEPROM format version 4
```

5. From the Product License Registration page, choose the router series. Enter the Product ID and Serial Number retrieved from the previous step.

Select Type of Series: \*

- ☐ 30 Day Customer Activated Trial License for SR520/600 series  
☐ 30 Day Customer Activated Trial License for 1800 series  
☐ 30 Day Customer Activated Trial License for 2300 series  
☐ 30 Day Customer Activated Trial License for 3800 series

#### Cisco IOS Content Filtering Service Demo Request.

You are requesting a demo license for Cisco IOS Content Filtering Service for the ISR. It will expire in 30 days. If you have not purchased the software from Cisco by that time to convert to standard Cisco IOS Content Filtering Service license file, your demo system becomes inoperable. You cannot register for a 2nd Cisco IOS Content Filtering Service demo license for the same serial number and router.

For the PID (Product ID) - enter the output from router CLI - "show diag"

c881w#show diag

Slot 0:

Chassis Serial Number : FTX1231YDEB

Product (FRU) Number : CISCO881W-GN-A-K9

As the example indicates above, enter the serial number and Product Number (Product ID) in the text box below

Product Id\*

Serial Number \*

- Enter the registrant information, then click the checkbox to accept the agreement. Click "Continue."

Agreement: \*

☐ Click here if you accept the conditions of the [End-User License Agreement](#)

#### Registrant Information

Name: \*

First Name: \*

Last Name: \*

Company: \*

Title

Address1: \*

Address2

City/Town: \*

State/Prov: \*

Postal/Zip: \*

Country: \*

Phone: \*

Fax

Email: \*

#### End User Information

If the user is different from above, please provide the information by clicking the box and filling in all the necessary fields.

Licensee (End-User): ☐

[Go Back](#)

[Continue](#)

- Review and submit the information.
- Once the Demo License Registration is completed, you can go ahead and configure the router to set up Cisco IOS Content Filtering. Content Filtering can be configured either through the router [CLI](#) or through [Cisco Configuration Professional](#).
