

Cisco Prime Demo Series

Cisco Prime products deliver next-generation management by supporting an intuitive workflow-oriented user experience and integrated lifecycle operations across Cisco architectures, technologies, and networks. Products are available for both enterprise IT organizations and service providers.

Cisco Prime for IT

Cisco Prime for IT products optimize network value through a network services management foundation and common attributes for Borderless Networks, data center, and collaboration architectures, networks, and services.

Cisco Prime for IT Demo Series Schedule

Learn how Cisco Prime can improve the productivity of your staff, help ensure service delivery, and reduce network downtime. These sessions include short product overview presentations, followed by product demonstrations with use cases that highlight the value of Cisco Prime products and solutions. See schedule for time and dates in your region.
