Starting with release 3.3, interconnected ONS 15454/15327 nodes running different software loads is not supported. ONS 15327 or ONS 15454 interconnected nodes must be running the same software release versions.

For supported ONS 15454 and ONS 15327 software release feature set utilization and interoperability, software compatibility is as follows:

|           |        | ONS 15454 |        |        |        |        |        |
|-----------|--------|-----------|--------|--------|--------|--------|--------|
|           |        | R2.2.x    | R3.0.x | R3.1.x | R3.2.x | R3.3.x | R3.4.x |
| ONS 15327 | R1.0.x | X         | X      | X      | X      |        |        |
|           | R3.3.x |           |        |        |        | X      |        |
|           | R3.4.x |           |        |        |        |        | X      |

Note: For ONS 15454 release 3.x, a newer version of the TCC (ex: TCC+) is required.

See release notes and documentation for software release features and information.
