

Cisco WebEx Enterprise Edition on Cisco Global Price List

Cisco WebEx[®] web conferencing gives organizations the power to hold interactive meetings, conduct engaging events, deliver live sales presentations, implement remote learning programs, and provide 24-hour customer support. It can enhance virtually every facet of a business by increasing productivity and efficiency while improving overall communication.

Cisco is the leader in global on-demand web conferencing. Cisco[®] WebEx solutions help increase productivity and improve collaboration across the entire enterprise. With WebEx web conferencing solutions, you can:

- Meet in real time anywhere, anytime, on any device worldwide
- Enhance communications using integrated high-quality video
- Integrate with existing day-to-day business applications
- Take advantage of existing unified communications investments in voice and video

Cisco WebEx collaboration solutions help minimize costs and optimize IT resources. WebEx web conferencing solutions are delivered as Software-as-a-Service (SaaS) through the WebEx Cloud and are easy to roll out and scale throughout your organization.

Cisco WebEx Enterprise Edition

For organizations looking to enable the entire enterprise with the power of web collaboration, Cisco offers a suite of WebEx services - Cisco WebEx Meetings or Cisco WebEx Meeting Center, Cisco WebEx Event Center, Cisco WebEx Training Center, and Cisco WebEx Support Center - as a bundled licensing option. Now your organization can fully meet its business needs by enabling collaboration for every core team and department - from sales and marketing to product management, engineering, corporate training, human resources, and customer support. Table 1 lists the features of Cisco WebEx Enterprise Edition.

Meetings and Meeting Center

In 2012, Cisco introduced a new collaboration solution - Cisco WebEx Meetings. This people-centric web meeting service incorporates audio, high-definition video, and real-time content sharing, and allows teams to easily share information through any computer or mobile device. WebEx Meetings helps you streamline the entire meeting process by providing Meeting Spaces - a highly secure, centralized online space for organizing and sharing all meeting-related activities and information.

Cisco is gradually rolling out WebEx Meetings to both new and existing customers. We encourage all new customers to take advantage of the new features of WebEx Meetings. However, during the transition period, all customers have an option of purchasing the legacy [WebEx Meeting Center](#) service. Both of these options are available as part of the Enterprise Edition bundle. To help determine which service is best for you, contact your Cisco account representative or partner. If you are unsure who to contact, send email to webexpartnerhelp@cisco.com.

It is important to understand that both Meetings and Meeting Center share a single set of SKUs. A partner must only enter the generic “Web Conferencing” SKU when submitting an order. After the order has been completed, the partner (or customer) will then have the ability to choose between Meetings and Meeting Center as they fill out the provisioning form.

Table 1. WebEx Enterprise Edition Matrix

	WebEx Meetings and Meeting Center	WebEx Training Center	WebEx Event Center	WebEx Support Center
Use	General collaboration; presentations; information sharing; and team, partner, and customer meetings.	Real-time employee, partner, and customer training. Online classes and distance education. Cisco WebEx Messenger (Available on GPL with Select Offers)

Cisco WebEx Messenger™, formerly Cisco WebEx Connect® IM, streamlines communications and enhances productivity by unifying presence, instant messaging (IM), voice, IP telephony, and web conferencing securely into one client on your desktop. Cisco WebEx Messenger uses best-in-class unified communications, offers flexible deployment models, is built on open standards, and integrates with commonly used desktop applications. You can communicate and collaborate effectively from anywhere you have an Internet connection.

Cisco WebEx Enterprise Edition GPL Procurement Options

You can procure Cisco WebEx Enterprise Edition through the Cisco Global Price List (GPL) using numerous flexible pricing and packaging options designed to meet the business needs of any organization.

- **Employee Count** is best suited if your company meets the minimum license quantity requirements and you need to make the WebEx services available to all employees. It also allows you to pay a fixed price regardless of how many users actively use the services.
- **Active User** is best suited for a company that meets the minimum license quantity requirements, and wishes to make collaboration available to all employees without having to purchase each employee an individual account. However, unlike the Employee Count, you pay based on the number of users who use the services.
- **Named User** is suitable for a company that wants to provide the Cisco WebEx services for a portion, but not all, of the employees while paying based on the number of users who have access to the service.
- **Step-ups** are SKUs designed to give customers the ability to upgrade from one licensing model to another. Two types of step-ups are available (Table 2).

Table 2. Types of Step-Ups

Step-Up Category	Step From	Up To	Notes
A*	Ports	Meeting Center Named User	One Port becomes 10 Named User subscriptions
B	Meeting Center Named User	Enterprise Edition Named User	One Named User becomes 1 Named User

* Type A step-ups are available for Cisco WebEx Meeting Center only. It is not possible to step up directly from Ports to Enterprise Edition Named User.

Table 3 lists the GPL licensing options for WebEx Enterprise Edition.
