

## Cisco TelePresence Profile 55-inch Single and Dual

The Cisco TelePresence™ portfolio creates an immersive, in-person experience over the network - empowering you to collaborate with others like never before. Through a powerful combination of technologies and design that allows you and remote participants to feel as if you are all in the same room, the Cisco TelePresence portfolio has the potential to provide great productivity benefits and transform your business. Many organizations are already using it to manage costs, make decisions faster, improve customer intimacy, scale scarce resources, and speed products to market.

### Product Overview

The Cisco Telepresence Profile 55-inch Single and Dual is the next-generation team-collaboration video solution with up to 1080p60 high-definition (HD) resolution. It brings colleagues face-to-face at the touch of a finger through a user-friendly touch interface. With these systems you can easily share presentations and multimedia to inspire ideas and generate better discussions. The Cisco Telepresence Profile 55-inch Single comes in two performance configurations, the codec C40 and codec C60 configuration, while the Cisco Telepresence Profile 55-inch Dual has one performance configuration, the codec C60.

## Cisco TelePresence Profile 55-inch Features
