

Teleworker

Cisco TelePresence System EX Series

Cisco TelePresence System EX Series Teleworker

Work-Life Balance

Keep your colleagues close.
High-quality in-person
experiences help assure
excellent presence every time.

Teleworking – Better Than Being There

Working from a remote location does not mean that you are remote. With Cisco TelePresence®, teleworkers can enjoy an in-person experience as if you were in the same room.

Work-Life Balance

Office 11 a.m.

Remote 9 p.m.

Offers Flexibility

Being a teleworker solves the challenges of commuting and dealing with traffic and weather concerns that can affect productivity. Being a remote worker enables collaboration with people in several time zones at any time.

“Emotions are the best indicator of project health, and Cisco TelePresence [conferencing] has helped with understanding emotions in meetings.

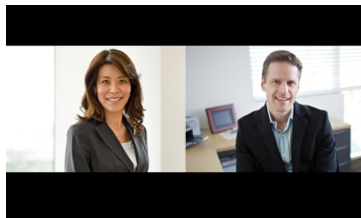

Seeing from people’s facial expressions that they’re either excited or frustrated, for instance, puts you in a better position to navigate the conversation.”

Teleworker Benefits

Watch High-Resolution video

Conduct Multiparty Meetings

Share Content with a Document Camera

Use as a PC Monitor in Addition to a Video Endpoint

Full HD Video

Wideband Audio

High-Fidelity Speakers

Document Camera

PC Connectivity

Tablet and Smartphone Connectivity

EX90 and EX60 Differentiators

Screen Size

EX90: 24-inch PC Screen with crisp 1920 x 1200 Resolution

EX60: 21.5-inch PC Screen with clear 1920 x 1080 Resolution.

Camera

PrecisionHD™ Camera supports high quality 1080p HD

PrecisionHD™ Camera with optical zoom and F1.7, 45-65° field of view.

PrecisionHDT™ Camera with optimal F1.7, 50° field of view.

The Cisco TelePresence System EX90 has optical zoom for a wider view when there are two participants.

Audio

Stereo front speakers and a full-range microphone provide a high-quality sound experience. The EX90 has an integrated sub-woofer for even richer audio.

Multiparty Meetings

The EX Series allows you to connect with multiple sites using a centralized bridge. It offers an optional embedded video bridge.

Dual Display

The EX90 allows you to view content on a separate display, leaving the main screen for viewing meeting participants so attendees can retain that in person experience even while sharing content. The EX90 allows you to view content on a separate display.
