

Cisco 2800 Series Green Accessory Kits

Overview

Cisco is pleased to announce the availability of reduced-material accessory kits for the Cisco® 2800 Series Integrated Services Routers in our efforts to make product changes that reduce the environmental impact of our network solutions. The new accessory kits save material by removing items that customers usually do not use. The items removed include the console cable, Ethernet cable, auxiliary cable or adapter, Quick Start documentation, and cable guides.

The standard accessory kit is included with a Cisco 2800 Series Integrated Services Router by default, and the new green accessory kit is an available option in the configuration tools. Since the release of the Cisco 2800 Series Routers, paper documentation in the accessory kits has been reduced by nearly 170 pages, saving 820 grams of paper. Every green accessory kit saves an additional 330 grams of material, potentially reducing 100 tons from landfills annually. The reduced-material kits result in less consumption of raw materials in manufacturing, energy savings due to lower shipping weights, and fewer materials that will eventually become waste.

Table 1 describes the contents of the Cisco 2800 Series accessory kits.

Table 1. Contents of Cisco 2800 Series Green Accessory Kits

Default Accessory Kit	Optional Green Accessory Kit
<ul style="list-style-type: none"> • Cisco IOS® Software Release Notes • Cisco IOS Software User License • Cisco 2800 Series compliance and safety documentation • European Union Restriction of Hazardous Substances (RoHS) documentation • Cisco Router and Security Device Manager (SDM) Quick Start Guide • 19-in. rack-mount brackets • Grounding lug • Cisco 2800 Quick Start Guide • Cable guide • Console cable • Auxiliary modem adapter and cable • Ethernet cable 	<ul style="list-style-type: none"> • Cisco IOS Software Release Notes • Cisco IOS Software User License • Cisco 2800 Series compliance and safety documentation • RoHS documentation • Cisco SDM Quick Start Guide • 19-in. rack-mount brackets • Grounding lug

Accessory Kit Ordering Information

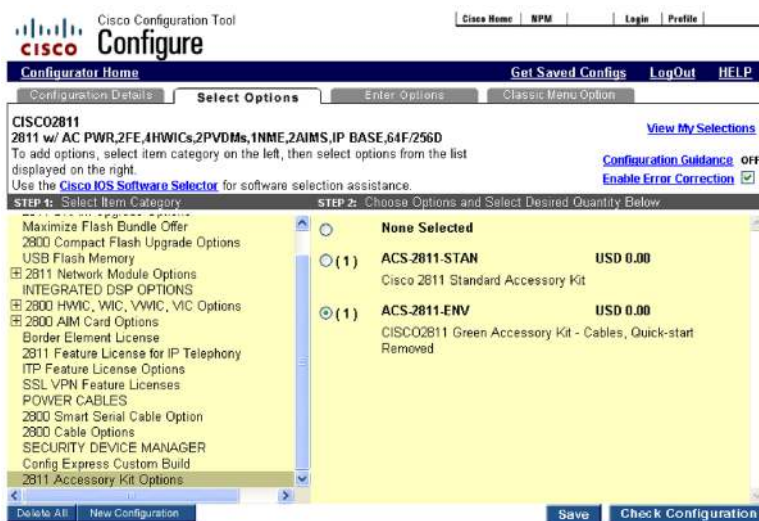

The accessory kits are selectable in the Cisco Dynamic Configuration Tool; Table 2 lists the part numbers. No action is required for customers to receive the default accessory kits. Customers seeking to reduce their materials consumption can select the optional green accessory kits at no cost.

Table 2. New Accessory Kit Options

Cisco 2800 Series Router	Default Accessory Kit	Optional Green Accessory Kit
CISCO2801	ACS-2801-STAN	ACS-2801-ENV
CISCO2811	ACS-2811-STAN	ACS-2811-ENV
CISCO2821	ACS-2821-51-STAN	ACS-2821-51-ENV
CISCO2851	ACS-2821-51-STAN	ACS-2821-51-ENV

Figure 1 shows an example of how to select the Cisco 2811 Green Accessory Kit in the Dynamic Configuration Tool.
