

New Cisco Catalyst 4900 Series Green Bundle with Volume Service Pricing

PB574525

Cisco is committed to reducing inefficiency and waste through intelligent process optimization. The new Cisco Catalyst® 4900 Series Green Bundle uses a high-density, cost-effective packaging option for the Cisco Catalyst 4948 and 4948 10 Gigabit Ethernet Switches.

New Features

The new Cisco Catalyst® 4900 Series Green Bundle consists of 10 fully configurable Cisco Catalyst 4900 Series Switches shipped in a single multipack shipping box. The Cisco® switches in the bundle are fully configurable when being ordered, but all switches in the 10-pack must have the exact same configuration.

The bundle includes:

- Ten configured and tested Cisco Catalyst 4948 or 4948 10 Gigabit Ethernet Switches
- One accessory kit
- One power cord for each AC power supply
- Ten rack-mount kits

The bundle is designed for single-site deployments.

Benefits

- Environmentally friendly ("green")
- Volume service pricing (50 percent discount)
- Efficient business process
- Reduced warehouse floor space
- Reduced packaging material (Figure 1)
- Elimination of unnecessary accessory kits
- Reduced handling in shipping and receiving

Ordering Information

Configure the bundle part number just like a single switch. Select the type and number of power supplies. Then choose one AC power cord for each AC power supply selected. The default Cisco IOS® Software image is LAN Base. Deployments that require IP Base or Enterprise Services software images must select the Cisco IOS Software upgrade part number (WS-C4900-SW-LIC) before completing the configuration.

When the configuration is complete, the system will expand the configuration into 10 individual switches, all with the same components.
