

## Cisco PKM908 Multi-Stream CableCARD

The Multi-Stream CableCARD™ (M-Card™), when paired with an OpenCable™ Host, provides consumers with access to advanced digital cable services encrypted with Cisco's PowerKEY® Conditional Access system. The PKM908 adds capability to support up to 8 program streams when activated with a Software Upgrade and used within a capable HOST.

## Product Specifications

Refer to [www.cablelabs.com](http://www.cablelabs.com) for CCIF and CCCP specification and certification.

## Ordering Information

**Table 1.** Ordering Information

Model	Description	Part Number
<b>PKM908</b>	PKM908 M-Card, PowerKEY CA, Mult=200	4043779

Note: <sup>1</sup>PKM908 CableCARDS are compatible with Cisco's Digital Network Controller Systems (DNCS) using System Information (SI) formatted per SCTE 65 which is typically used in North America. These CableCARDS are not compatible with Cisco's DNCS using SI formatted per DVB.

## Service and Support

Using the Cisco Lifecycle Services approach, Cisco and its partners provide a broad portfolio of end-to-end services and support that can help increase your network's business value and return on investment. This approach defines the minimum set of activities needed by technology and by network complexity to help you successfully deploy and operate Cisco technologies and optimize their performance throughout the lifecycle of your network.
