Deluxe Model AT2000 AllTouch® Universal Remote Control

Description

The Deluxe Model AT2000, AllTouch® Universal Remote Control features four-function operation with component buttons labeled for Cable, TV, VCR, and Auxiliary. Built-in codes cover additional devices such as CD, DVD, and audio equipment. The internal list of device codes is upgradeable, which can extend the utility and life span of the AT2000 remote control.

Pre-programmed A, B, and C buttons enhance control of the key navigational features of the interactive program guide within Scientific-Atlanta's Explorer® set-tops.

Features

- Upgrades internal macros, device codes, and button functions using a 6-pin I/O port
- Controls Scientific-Atlanta Explorer digital interactive set-tops and advanced analog set-tops, as well as other leading-brand cable or satellite set-top boxes
- Retains special user settings in nonvolatile memory when batteries are changed
- Supports a wide array of audio receivers and amplifiers using the AUX (Auxiliary) mode
- Shares fast forward, rewind, pause, and play buttons between VCR and video-on-demand (VOD) operation
- Includes Bypass button to switch on and off the optional RF Bypass Module that attaches to Explorer set-tops
- Provides visual feedback of operating status with red LED
- Provides the option to lock channel control to either the CBL, TV, or VCR mode, or to share channel control from mode to mode (excluding AUX)
- Provides the option to lock volume control to either the CBL, TV, VCR, or AUX mode, or to share volume control from mode to mode
- Provides the option to power ON/OFF interconnected digital devices either individually, simultaneously, or grouped by one or more of the CBL, TV, VCR, and AUX modes
- Provides recessed area for promoting cable operator name and logo
- Includes batteries
