

## Deluxe Model ER1 3-Function Remote Control

### Description

The Deluxe Model ER1, 3-Function Remote Control features component buttons labeled for Cable, TV, and VCR. The internal list of device codes can be upgraded to ensure compatibility with the widest range of manufactured TVs and VCRs.

Pre-programmed A, B, and C buttons enhance control of the key navigational features of the interactive program guide within Scientific-Atlanta's Explorer® set-tops.

### Features

- Upgrades internal macros, device codes, and button functions using a 6-pin I/O port
- Controls Scientific-Atlanta Explorer digital interactive set-tops and advanced analog set-tops, as well as other leading-brand cable or satellite set-top boxes
- Retains special user settings in nonvolatile memory when batteries are changed
- Includes Bypass button to switch on and off the optional RF Bypass Module that attaches to Explorer set-tops
- Provides the option to lock volume control to either the CBL, TV, or VCR mode, or to share volume control from mode to mode
- Shares fast forward, rewind, pause, and play buttons between VCR and video-on-demand (VOD) operation
- Provides visual feedback of operating status with red LED
- Provides recessed area for promoting cable operator name and logo
- Includes batteries
