

PowerKEY® CableCARD™ Module

Description

When paired with a digital cable-ready TV or digital home communication terminal (DHCT), the PowerKEY® CableCARD™ Module provides conditional access so that you can display advanced digital cable services that are otherwise protected by a conditional access scrambling system.

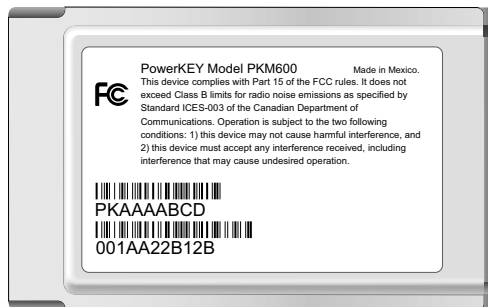

Features

- Supported by Scientific-Atlanta's Digital Network Control System
- Qualified CableCARD Module by Cable Television Laboratories, Inc.

Specifications

Fully compliant with OpenCable specifications

Refer to www.opencable.com and www.scte.org for more information on specifications.
