

Accessories for 8600^{X™} and 8710^X Home Communications Terminals

Dual Cable Switch

An A/B switch is an internal switching device for dual cable systems when dual drops enter the home. The electrical requirements of each model home terminal support a model specific A/B device.

A/B Switch

Model Number	Part Number	HCT Model
8654-X04	543257	8600 ^X

Please note that all Model 8600^X and 8710^X Home Communications Terminals (HCTs) already have the internal driver built standard from the factory.

RF Bypass Switch

An RF Bypass switch is a device that switches the RF signals going to the TV from one of two sources. It provides the subscriber with additional options as to which channels they can view while videotaping others or restores the cable-ready features of their TV.

RF Bypass

Model Number	Part Number	HCT Model
8655-X21A	511360	8600X
