Product Migration Options

Customers are encouraged to migrate to the GS7000 4X Forward and Reverse Segmentable Node. Information about this product can be found at: http://www.cisco.com/en/US/products/ps8952/index.html. Generally speaking, customers looking to purchase the 2X Forward Only Nodes can change the second digit of their 18-digit product ID number from either 2 to 4 or from 3 to 5,and they will be ordering the equivalent 4X Forward/Reverse Node. All other digits in the PID should stay the same. The new PIDs will give customers a node that is capable of up to four-way segmentation of the forward path rather than limiting them to two-way segmentation of the forward path.

Customers can use the Cisco Technology Migration Program (TMP) to trade-in products and receive credit toward the purchase of new Cisco equipment. For more information about Cisco TMP, customers should work with their Cisco Partner or Cisco account team. Cisco Partners can find additional TMP information on Partner Central at http://www.cisco.com/web/partners/pr11/incentive/tmp/index.html.

Customers may be able to continue to purchase the 1 GHz GS7000 Node 2X Forward Segmentable Only Products through the Cisco Certified Refurbished Equipment program. Refurbished units may be available in limited supply for sale in certain countries on a first-come, first-served basis until the Last Date of Support has been reached. For information about the Cisco Certified Refurbished Equipment program, go to: http://www.cisco.com/go/eos

Service prices for Cisco products are subject to change after the product End of Sale date

The Cisco Takeback and Recycle program helps businesses dispose properly of surplus products that have reached their end of useful life. The program is open to all business users of Cisco equipment and its associated brands and subsidiaries. For more information, go to:
http://www.cisco.com/web/about/ac227/ac228/ac231/about_cisco_takeback_recycling.html
