

# Cisco UCS Server Appliances for Cisco Show and Share Deployments: Cisco MXA UCS C220 M3 Rack Server Appliance

## Product Overview

The Cisco Show and Share<sup>®</sup> application is a webcasting and video sharing application that can help transform the way that organizations learn, grow, communicate, and collaborate. It is a critical component of the Cisco<sup>®</sup> Video Content Capture, Transform, and Share solution. Support from the broad ecosystem of Cisco partners for deployment and solution development helps ensure a successful video content implementation.

The Cisco Show and Share application is currently shipped and delivered as a preconfigured software solution on specific Cisco Unified Computing System<sup>™</sup> (Cisco UCS<sup>®</sup>) server appliances (Figure 1).
