Recommended Microsoft Hot Fixes for Cisco MXE 3500

May 2012
Product Bulletin No. 676745

Introduction

This bulletin lists the Microsoft hot fixes that we recommend you install on the Cisco MXE 3500 Media Experience Engine.

## Required Hardware and Software Levels

This bulletin applies to Cisco MXE 3500 Release 3.2.0 and later

Installation

For each hot fix, click the link to go directly to the Microsoft website and do the following:

1. Read the Microsoft Security Bulletin.

2. Download the hot fix by clicking the link on the Security Bulletin webpage for **Windows Server 2003 Service Pack 2**.

3. Right-click the hot fix.

4. Click **Properties**. The File Property dialog box displays, as shown in Figure 1.

Figure 1.   File Property Dialog Box
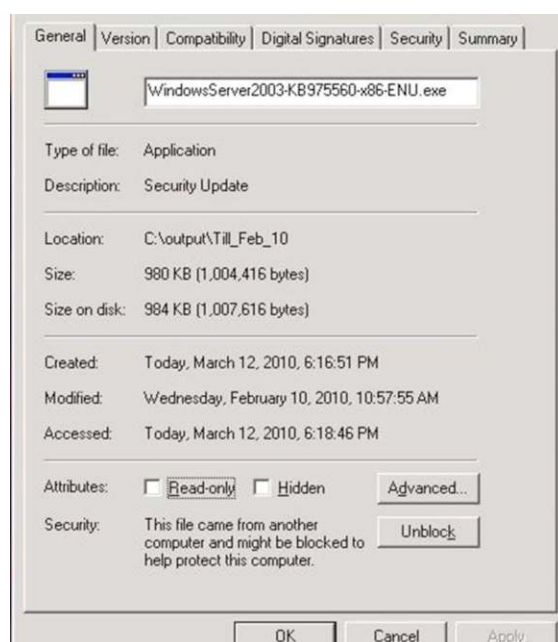

5. Click the **Unblock** button. The Unblock button dims, as shown in Figure 2.

   Or:

   If the Unblock button is not present, click **Cancel**, and install the hot fix by following the installation procedure that Microsoft provides.

6. Click **OK**. The File Property dialog box closes.

7. Install the hot fix by following the installation procedure that Microsoft provides.
