

Introducing New eDelivery Software PIDs for the Cisco Identity Service Engine

To help simplify acquiring Identity Services Engine (ISE) evaluation software and virtual machine appliances, new eDelivery software products are available on Cisco Commerce Workspace and the legacy Ordering Tool.

The new software will be delivered via Cisco's eDelivery service. After completing a purchase, the customer will receive instructions via email for acquiring the ISE software or virtual machine appliance. The email notification will be sent within a day after the order is completed. Please note that this replaces the existing manual download processes.

New ISE Evaluation Software PID

The new eDelivery ISE evaluation software allows customers and partners to use all features of the Identity Services Engine for 90 days (with a limit of 100 endpoints). The evaluation software will always be based on the most current ISE version. Additional software patches may need to be installed separately.

Product ID (PID)	Description	List Price	Compliance Hold
R-ISE-EVAL-K9=	ISE 90-Day Evaluation Software	\$0	No

The new ISE evaluation software PIDs will be orderable on all price lists, and on Cisco Commerce Workspace and the legacy Ordering Tool.

NEW ISE Virtual Machine Appliance PIDs

The new eDelivery ISE virtual machine appliance PIDs will replace the current eDelivery PIDs. They deliver the same ISE software application without any change to pricing.
