

## Cisco Security Manager 4.3 UCS Server Bundles with Latest UCS M3 Hardware

PB712813

Cisco® Security Manager UCS Server bundles deliver an integrated security management solution for Cisco adaptive security appliances, intrusion prevention systems (IPSs), and VPN devices. The bundles include the following components and deliver a complete, scalable security management solution:

1. Cisco Security Manager 4.3
2. Cisco UCS® C220 M3 Rack Server
3. Windows Server 2008 Enterprise R2 operating system

All components have been pre-tested to ensure compatibility and are purchased as a single solution, eliminating guesswork and speeding time to deployment. Apart from the obvious performance benefits of having the latest Cisco Security Manager software and the latest Cisco UCS C220 M3 hardware, Cisco Security Manager 4.3 UCS Server bundles provide the following benefits:

1. Ease of procurement: Purchasing a bundle eliminates the delays associated with procuring separate hardware and software components from multiple vendors.
2. Decreased complexity: Each bundle includes a Cisco UCS server with the operating system and Cisco Security Manager pre-installed, for a comprehensive package that's guaranteed to work together.
3. Reduced time to deployment: Bundle components have been pre-tested and are purchased as a single solution, eliminating guesswork and ensuring fast, predictable deployment of network security management at a competitive price.
4. Reduced rack space: The latest Cisco UCS C220 M3 Rack Servers only take up 1 RU, compared to the earlier 2-RU unit.

The bundles come in two sizes. Table 1 highlights the features and capabilities of each.

**Table 1.** Table 1. Cisco Security Manager 4.3 UCS Server Bundle Configurations

Product ID	CSM4-UCS2-50-K9	CSM4-UCS2-150-K9
Devices Managed	50	150
EPS Support	5000 events/second	10,000 events/second
UCS Server/Chassis	UCS C220 M3	UCS C220 M3
Size	1 RU	1 RU
Processor	2.66-GHz Xeon X5650 95W CPU/12 MB cache/DDR3 1333-MHz	2.66-GHz Xeon X5650 95W CPU/12 MB cache/DDR3 1333-MHz
Memory	16 GB	24 GB
HDD	1.5 TB	3.5 TB
RAID	0	5
Operating System	Windows Server 2008 R2 Enterprise	Windows Server 2008 R2 Enterprise
