

Cisco and Partner Services for the Branch

Create a clear, replicable, optimized branch footprint across technologies with services from Cisco and our partners.

Challenge: Integrating and Managing an Optimized Branch Footprint

The new family of Cisco® Integrated Services Routers Generation 2 (ISR G2) delivers borderless networks that can transform the branch and enable business innovation and growth. The ISR G2 delivers borderless services on any device, anywhere and at any time, including business-grade video services, all at the lowest total cost of ownership.

Establishing a clear, replicable, optimized branch footprint across technologies; integrating it with your infrastructure; and managing it effectively are dependent on a depth and breadth of expertise across technologies.

Why Cisco Services?

Networking expertise:

- Tested, proven architectures aligned to your business goals
- Breadth and depth of expertise to successfully architect and deploy integrated, complex multitechnology solutions

Collaborative approach with partners:

- Superior scalability and coverage through our global community of certified partners
- Better together: complementary depth and breadth of expertise

Intelligent, personalized services:

- Proactive, predictive network-level services customized to your needs
- Sharing of knowledge and leading practices to enable your success

Innovative solutions:

- Modular, scalable architectures optimized and managed using Cisco best practices
- Services for specialized business applications

Solution: Cisco and Partner Services for the Branch

Services from Cisco and our partners help you accelerate the benefits of the ISR G2. We can support you through the whole lifecycle of your network architecture, helping you to:

- Align your architecture, technology, and resources to your business challenges, opportunities, and priorities
- Accurately assess your network's overall readiness to support proposed solutions
- Reduce risk, delays, and the cost of deployment
- Achieve operational excellence and effectively adopt, manage, and scale technologies and applications
- Realize the value of the architecture by keeping network devices and applications secure, available, and operating efficiently
- Optimize your network to continually improve performance

Whether you're deploying voice, video, data, security, wireless, or data center technologies, let our expertise help you succeed.

Routing and Switching Services

The enterprise network becomes a strategic asset through effective architecture, deployment, and operations.

- Routing and Switching Planning Services
- Routing and Switching Design Services
- Cisco Foundation Technology Remote Management Service
- Cisco Network Optimization Service

For more information, visit www.cisco.com/go/services/routing-switching.

Cisco Unified Communications Services

Deploy a secure, resilient Cisco Unified Communications solution, enabling powerful ways to collaborate with coworkers, partners, and customers across any workspace.

- Cisco Unified Communications Planning and Design Services
- Cisco Unified Communications Predeployment, Deployment, and Postdeployment Service Bundle
- Cisco Unified Communications Fast Track Migration Service
- Cisco Unified Communications Essential Operate Service
- Cisco Unified Communications Optimization Service

For more information, visit www.cisco.com/go/ucservices.

Cisco Unified Contact Center Services

Help contact centers enhance customer relationships, enable richer collaboration, and accelerate technology innovations to gain and sustain competitive advantage.

- Cisco Unified Contact Center Prepare Service
- Cisco Unified Contact Center Optimization Service

For more information, visit www.cisco.com/go/uccservices.

Cisco TelePresence Services

Realize the full potential of your Cisco TelePresence™ solution with support for planning, design, implementation, and ongoing operation.

- Cisco TelePresence Planning, Design, and Implementation Service
- Cisco TelePresence Remote Management Services
- Cisco TelePresence Essential Operate Service
- Cisco TelePresence Optimization Service
- Cisco Medianet Readiness Assessment Service

For more information, visit www.cisco.com/go/telepresenceservices.

Security and Physical Security Services

Deploy and operate network platforms that defend critical business processes against attack and disruption, protect privacy, and support policy and regulatory compliance controls.

- Cisco Security Posture Assessment Service
- Cisco Security Remote Management Services
- Cisco Security Optimization Service
- Cisco Video Surveillance Prepare, Plan, Design, and Optimization Services (Physical Security)

For more information, visit www.cisco.com/go/services/security.

Data Center Services

Consolidate, virtualize, and automate your data center to meet business goals, increase efficiency, and lower operating expenses.

- Cisco Branch and Desktop Virtualization Planning and Design Service
- Cisco Wide Area Application Services Planning and Design Service
- Cisco Data Center Optimization Service

For more information, visit www.cisco.com/go/dcservices.

Wireless LAN Services

Deploy or migrate to a Cisco Unified Wireless Network solution and integrate a variety of secure wireless network solutions, technologies, and strategies.

- Cisco Wireless LAN Network Security Planning and Design Service
- Cisco 802.11n Migration Service
- Cisco 802.11n Readiness Assessment Service
- Cisco Unified Wireless Network Migration Service
- Cisco Wireless LAN Mobility Services Readiness Assessment Service
- Cisco Wireless LAN Optimization Service

For more information, visit www.cisco.com/go/wirelesslanservices.

Technical Services

Help ensure that your Cisco products and network operate efficiently and benefit from the most up-to-date system and application software.

- Cisco SMARTnet[®] Service
- Cisco Software Application Support Services
- Cisco Focused Technical Support Services
- Cisco Services for Intrusion Prevention System (IPS)
- Cisco SP Base and SP Base Onsite
- Cisco Smart Care Service
- Cisco SMARTnet Service for SBCS

For more information, visit www.cisco.com/go/ts.

Cisco and Partner Expertise: Better Together

Cisco engineers and Cisco Certified Partners are among the industry's elite in providing integrated, collaborative, adaptive solutions. Jointly with our partners, we form the largest collection of industry certified experts in the world, supporting the most complex networks to meet and exceed the needs of our customers. Cisco teams can collaborate with partners to foster consistency and alignment with Cisco methodologies, tools, and leading practices.

Availability and Ordering

Most services for the branch are available globally and can be purchased from Cisco and Cisco Certified Partners. Service delivery details might vary by region.
