Cisco UCS Solution Accelerator Pak Configurations for Citrix Desktop Virtualization Workloads

Solution Accelerator Pak

IT environments of all sizes need to deliver high performance and a reliable user experience consistently, across all devices—wherever users need to be productive. Cisco and Citrix desktop virtualization solutions help you achieve this with:

- Reduced capital outlay
- Lower operating costs
- Fast provisioning
- Simplified management and security
- Flexible scalability as your demand evolves

Take advantage of these special promotions and get started on transforming your desktops into secure, mobile, virtual workspaces.

Solution Accelerator Pak bundles are updated on a regular basis. For more information on the latest bundles, contact your Cisco sales representative or visit www.cisco.com/go/vdi.
