

Paul Grey

Technologist, Innovations Practice  
Cisco Internet Business Solutions Group

Paul Grey is a Technologist in the Innovative Solutions Practice for the Cisco Internet Business Solutions Group (IBSG). IBSG works with the world's leading companies to help them become more competitive through effective business processes and technology deployment.

A Cisco veteran of more than eight years, Grey joined IBSG from Cisco's European Utilities and Smart Grid business development team, where he functioned as a Technical Business Development Manager.

He has used his technical knowledge and expertise gained from over 25 years of diverse industry experience to provide technical leadership and project support across multiple market theatres and brings innovative thinking to the Innovative Solutions Practice.

Grey received a Bachelor of Science honors degree from Sheffield University, is accredited in Cisco CCIE Routing and Switching, and holds a current CISSP Security certification.
