

Partnership for Urban Innovation

GLOBAL CONFERENCE 2010 • JUNE 17 – 18, 2010 • SHANGHAI, CHINA

THE CLIMATE GROUP

metropolis

Plenary and Breakout Session Biographies:

Uwe S. Brandes

Uwe S. Brandes is Vice President in the Initiatives Group at the Urban Land Institute (ULI) in Washington, D.C. where he leads ULI's Climate Change, Land Use and Energy (CLUE) and The City in 2050 initiatives.

Prior to ULI, Uwe was Vice President at the Anacostia Waterfront Corporation in Washington D.C., where he oversaw a \$175 million public infrastructure program. Prior to AWC, he served as Associate Director of the D.C. Office of Planning where he managed the award winning Anacostia Waterfront Initiative, an unprecedented inter-governmental partnership between the District of Columbia, the U.S. General Services Administration, the U.S. Navy and the National Park Service to redevelop the shores of the Anacostia River in the nation's capital. Uwe is a Fulbright Scholar and earned his A.B. in Engineering Science at Dartmouth College and Master of Architecture degree at Harvard University.

Dr. Christopher Borroni-Bird

Dr. Christopher Borroni-Bird is currently Director of Advanced Technology Vehicle Concepts at General Motors. He joined General Motors in 2000 as director of Design and Technology Fusion with responsibility for fostering collaboration between Design, Research and Engineering in support of future vehicle programs.

Chris Borroni-Bird is the driving force behind GM's "Reinvention of the Automobile" program, which includes the Autonomy, Hy-wire and Sequel concept vehicles. More recent work on Personal Urban Mobility and Accessibility (P.U.M.A) and Electric Networked Vehicle (EN-V) has extended this "Reinvention of the Automobile" to include connectivity so that all urban mobility challenges (energy, environment, safety, congestion, parking and affordability) can be addressed. This vision is featured prominently in the GM-SAIC Pavilion at the 2010 Shanghai World Expo. He is also the co-author of the book "Reinventing the Automobile: Personal Urban Mobility for the 21st Century" (with Prof. Bill Mitchell and Dr. Larry Burns) that was published by MIT Press in March 2010.

Plenary and Breakout Session Biographies:

Prior to joining General Motors, Chris Borroni-Bird was in technology management at DaimlerChrysler and led the effort to develop fuel cell vehicles that run on gasoline. He was inducted into the Automotive Hall of Fame as a Young Leader in 2000.

A native of Liverpool, England, Chris Borroni-Bird earned a First-Class B.A and an M.A degree in Natural Sciences from the University of Cambridge (King's College). He then started his Ph.D in Surface Science at University of Liverpool and completed it at the University of Cambridge (King's College). He continued his studies on reaction heats and heterogeneous catalysts during a post-doctoral fellowship at the University of Tokyo's Institute for Solid State Physics.

Bas Boorsma

Bas Boorsma currently serves as head of Cisco's Connected Urban Development, a commitment under the Clinton Global Initiative to help cities bring down carbon dioxide emissions by comprehensive organizational approaches and broadband strategies. In this capacity he is primarily responsible for coordinating the Amsterdam commitment under the program and coordinating the cooperation and exchange with the other CUD partner cities: Seoul and San Francisco.

Bas has a gained broad, in-depth experience in projects which concentrate on E-community development and broadband deployment worldwide. In his previous capacity as executive director of the International Network of E-Communities (2003-2007) he oversaw and managed the exchange of know-how and facilitated cooperation between member communities in all areas associated with e-community development and the deployment of high-end broadband, such as regulatory issues, service development, user engagement and business model development. Bas has also been responsible for several broadband related projects in the Netherlands, including the national Connecting the Dots program of the Dutch Ministry of Economic Affairs to stimulate the exchange of broadband deployment among local players in the Netherlands.

metropolis

Plenary and Breakout Session Biographies:

Among the communities he works – or has worked - with are Amsterdam, Stockholm, Pau (France), Multimedia Super Corridor (Malaysia), Ottawa (Canada), Dubai, State of Colorado (USA), Utopia (Utah, USA), Malta, Iceland, Singapore, Government of Lebanon, Trikala (Greece), Seoul, San Francisco and Recife, Brazil.

Bas obtained his MA degree with honors in Political Science (International relations) and Asian History at the University of Amsterdam in 1993.

John Chambers

John Chambers is Chairman and CEO of Cisco. He has helped grow the company from \$70 million when he joined Cisco in January 1991, to \$1.2 billion when he assumed the role of CEO, to its current run rate of \$36 billion. In November 2006, Chambers was named Chairman of the Board, in addition to his CEO role.

Chambers joined Cisco in 1991 as Senior Vice President, Worldwide Sales and Operations and assumed the role of President and CEO in 1995. Prior to joining Cisco, Chambers spent eight years at Wang Laboratories (1982-1990) and six years with IBM (1976-1982). He holds a law degree (1974) and a bachelor of science / bachelor of arts degree (1971) in business from West Virginia University and a masters of business administration degree in finance and management (1975) from Indiana University. Chambers has received numerous awards for his leadership over his past 14 years at the helm of Cisco, including: *Time Magazine's* "100 Most Influential People," one of *Barron's* "World's Best CEOs," the "Best Boss in America" by *20/20*, one of *BusinessWeek's* "Top 25 Executives Worldwide," "CEO of the Year" by *Chief Executive Magazine*, the Business Council's "Award for Corporate Leadership," and "Best Investor Relations by a CEO" from *Investor Relations Magazine* three times. During his tenure as CEO, Cisco has been named to *Fortune's* "America's Most Admired Company" list seven times, *BusinessWeek's* "Top 50 Performers" list six times, *Forbes'* "Leading Companies in the World," and is one of the top 10 places to work in the U.S., China, Germany, France, India, UK, Australia, Singapore and several other countries.

Plenary and Breakout Session Biographies:

Robin Chase

Robin Chase is the co-founder and former CEO of Zipcar, an innovative car sharing service, and is currently the CEO of GoLoco.org, a venture combining online carpooling and social networking. She is also founder of Meadow Networks, a transportation consulting firm, and maintains a blog Network Musings on the topics of climate change, transportation, and wireless networks.

Chase is known as a global thought leader in the transportation sector. Her work is an illustration of the ways in which resource sharing, open platforms, and end-user participation can prove beneficial to individuals, businesses, and governments. Craig Newmark wrote "Robin's work illustrates what's best about people using the Internet: not well-intentioned yet futile do-goodism but business that's also a community service. It's about people using the Internet to work together in the service of one another."

Sean C.S. Chiao

Sean C.S. Chiao leads AECOM in China and oversees the global company's seven capabilities there: Architecture, Building Engineering, Design + Planning, Environment, Project and Program Management, Transportation, and Water and Urban Development. An advocate of AECOM's collaborative vision, Mr. Chiao has led AECOM's multidisciplinary experts into partnerships with local and provincial governments in China to help steer their "green growth" plans across the country.

Under Mr. Chiao's leadership, a growing base of private sector clients in China also are relying on AECOM's local knowledge and innovation to meet their engineering, design and program management needs. Across Asia, Mr. Chiao has overseen high-density master-plans for new towns and regeneration of existing urban landscapes that have drawn on sustainable themes. He has spearheaded the design and construction of a number of high-profile landscape master plans and major public open spaces in China and across Asia.

Mr. Chiao is a member of both the AIA and the ASLA, and holds a Master of Architecture in Urban Design from Harvard University and Master of Architecture degree from the University of California, Berkeley.

Partnership for Urban Innovation

GLOBAL CONFERENCE 2010 • JUNE 17 – 18, 2010 • SHANGHAI, CHINA

THE CLIMATE GROUP

Plenary and Breakout Session Biographies:

Dr Chengri Ding

Dr. Chengri Ding is associate professor of Urban Studies and Planning and director of the Chinese Land Policy Program, co-sponsored by the University of Maryland and the Lincoln Institute of Land Policy. His research interests include urban economics, growth management, housing and land studies, and the application of quantitative methods and GIS to issues in planning and public policy. He holds a B.S. degree from Beijing Normal University, an M.S. degree from the Chinese Academy of Sciences, and a Ph.D. from the University of Illinois at Urbana-Champaign in regional planning.

Wim Elfrink

Wim Elfrink is Executive Vice President, Cisco Services & Chief Globalization Officer, Cisco. Wim Elfrink has dual roles and organizations at Cisco. As Chief Globalization Officer (CGO), Elfrink is leading the company's globalization strategy, and as Executive Vice President, Cisco Services, he is responsible for Cisco Services worldwide. In both functions, Elfrink reports directly to CEO John Chambers. He has been with Cisco since 1997.

Gordon Falconer

Gordon Falconer is a Director of Cisco's Internet Business Solutions Group and has more than 20 years of experience in urban property development, project valuations / feasibility, property / infrastructure financial structuring, and property portfolio asset management.

He was formerly with Masdar City in Abu Dhabi (UAE), one of the world's most innovative greenfield and green city projects, where he held the position of Head of Strategy and Real Estate. Other positions include Vice President, Asset Management Real Estate at The National Investor, a leading Abu Dhabi Investment Bank, as well as executive positions at Jones Lang Lasalle and CB Richard Ellis in Australia. Gordon is based in Singapore and is heavily involved with Cisco's Smart +Connected Communities program as well as supporting selected key urban innovation engagements in Asia, China, India and

internationally. He is an associate member of the Australian Property Institute, and a member of the Royal Institute of Chartered Surveyors.

Dr. Lev Gonick

Lev Gonick is CIO Case Western Reserve University, Founder and Board Chair Emeritus of OneCommunity in Cleveland, Ohio. OneCleveland now known as OneCommunity, the award winning project is creating a connected community throughout Northeast Ohio through high speed wired and wireless network connectivity.

Gonick serves on multiple national and local boards and has been named one of the country's top CIOs by both InformationWeek and ComputerWorld. Previously, he served as chief information technology officer for Cal State Monterey Bay. From 1996 through 1999, Gonick was university dean for instructional technology and academic computing at California State Polytechnic University in Pomona, California. Gonick's extensive international efforts in education and technology date back to 1985. Thirteen years ago, he supported the development of HealthNet and Mango, one of Southern Africa's first Internet nodes, facilitating connectivity between health-care professionals and nongovernmental organizations in the field in Southern Africa. He has been involved in designing and implementing digital learning network projects in West African countries and in Israel, Egypt, Jordan, and Palestine. Gonick received his PhD in international political economy from York University in Ontario, Canada.

Dan Hill

British-born, Dan Hill is now based in Sydney and is a Principal with Arup. He is a designer and urbanist and has been working at the forefront of innovative information and communication technologies (ICT) since the early '90s.

As Head of Interactive Technology & Design at the BBC in London, Hill led design across their award-winning websites as well as conducting significant strategic work, re-thinking the organisation for the on-

Partnership for Urban Innovation

Plenary and Breakout Session Biographies:

demand age. He co-founded the global media product Monocle, and is one of the organisers of the acclaimed architecture and urbanism event Postopolis!, running in New York and Los Angeles so far. Dan writes City of Sound, widely regarded as one of the leading architecture and urbanism websites, as well as regularly writing for architecture and design press worldwide.

He has experience of product development and management in design, software and innovation, applied to sectors ranging from media and music to city government and academia. This is combined with a background of research and practice in urban regeneration through cultural industries and urban informatics.

For Arup, Dan is exploring the possibilities of urban informatics from a creative, design-led perspective, re-thinking how real-time information networks change streets and cities, neighbourhoods and organisations, mobility and work, play and public space. He works on major urban development projects worldwide, as well as for a variety of clients in Australia, ranging from the cultural sector to transportation infrastructure. Hill is a research leader for the Sydney office, as well as being a member of Arup's global Foresight + Innovation team.

Dan Hoornweg

Dan Hoornweg is a lead urban specialist in the Bank's central Urban Advisory Unit and has more than 20 years experience working in and with cities. Hoornweg joined the World Bank in 1993 and has worked in Sub-Saharan Africa, East Asia and the Pacific Islands, South Asia and Latin America and Caribbean regions. During that time he has worked with some 200 cities in more than 50 projects with climate change components.

Since August 2008, he has led the Bank's Urban program on cities and climate change, including management of the 2009 Marseille Cities and Climate Change Urban Research Symposium and urban studies related to climate change impacts in cities - mitigation and adaptation. Hoornwegs academic background includes degrees in Earth Sciences, Civil and Environmental Engineering.

THE CLIMATE GROUP

metropolis

Plenary and Breakout Session Biographies:

Steve Howard

Steve is the CEO of The Climate Group which he co-founded in late 2003. Steve has worked on global social and environmental issues from within business, NGO and UN settings. He has lead the establishment of the Climate Group in the US, Australia, China, India, Canada and Brussels. He Chairs the World Economic Forum's Global Agenda Council on Climate Change and is an Advisor to the Virgin Earth Challenge.

Whilst at the Climate Group, Steve has advised many companies, including assisting HSBC in becoming the world's first carbon neutral Fortune 100 company ahead of schedule; BSkyB in becoming the first Carbon Neutral Media Company; and News Corporation in the development of the Climate and Energy Initiative. He worked with the City of London to help establish the London Climate Change Agency and found the C40 large cities initiative.

Steve has worked with many State Governments. He has helped build support for the passage of California's benchmark legislation and together with the Premiers of Quebec and Manitoba facilitated the Montreal Declaration of States and Regions on climate change, which has led to emissions reductions in states and regions around the world. He has also led the formation of a major consumer climate campaign and formed a partnership with LiveEarth.

Steve has advised and briefed leading companies, CEOs, and State and Government leaders and VIPs on various aspects of climate change. He has given several hundred climate change presentations and speeches to audiences around the world and has chaired meetings with business and government leaders including Al Gore, Governor Schwarzenegger and Prime Minister Tony Blair. He was named by Scientific American in the SA50 for demonstrating leadership in the protections of the Earth's climate; a Climate Crusader by Time Magazine; and one of Britain's top 100 Environmentalists by the Independent on Sunday.

Prior to his role with The Climate Group, Steve was a Partner in the consultancy ERM where he led on Corporate Social Responsibility. Previously he was the founding Director of the Global Forest and Trade

Network for WWF International and Chairman of the 95+ Group. He was also Chairman of the UK Forest Stewardship Council, where he helped achieve a far-reaching consensus on a national forest certification standard and founding Chairman of the Tropical Forest Trust, which he helped establish to deliver ethically sourced tropical timber.

Steve has a first class honors degree in ecology and a PhD in Environmental Physics based on work as a Senior Fellow at the International Centre for Research in Agroforestry in Kenya and the University of Nottingham. Over the course of his career Steve has worked in more than thirty countries. He has a wife, a young son and squeezes in running and triathlons between work and family commitments.

William G. Hutchison

Mr Hutchison chairs Waterfront Toronto's i-Waterfront Advisory Council and he is Waterfront Toronto's Executive Director, Intelligent Communities, responsible for ensuring that Toronto's 2000 acres of revitalized waterfront lands become one of the world's leading Intelligent Communities. He is the Founding Chair of KINSA, The Kids' Internet Safety Alliance, and Board Chair of the KINSA Foundation. As Chair and CEO of Hutchison Management International he advises other clients on economic development, technology and growth strategies.

Mr Hutchison has been recognized many times as one of the world's leaders in the evolution and application of computer and telecommunication technology. In recognition of his contributions and achievements, he was elected as a "Fellow" of the Canadian Information Processing Society; previously he received their Gary Hadford Professional Achievement Award "For Professionalism and Integrity" and received the Research in Motion Private Sector Leadership Award from the Canadian Advanced Technology Alliance.

Plenary and Breakout Session Biographies:

Tony Kim

Tony Kim works as a trusted advisor to senior levels of large public sector organizations where transformation is imminent or there is the potential for ground breaking projects. In the Cisco Internet Business Solutions Group (IBSG) Public Sector practice, Tony's focus is leading the Connected Urban Development (CUD) Seoul project. CUD has a partnership with the Clinton Global Initiative, the cities of Seoul, Amsterdam and San Francisco partnered with MIT working on reshaping urban mobility policies and systems, and information systems to reduce carbon emissions while increasing economic development impact.

Tony is an active member of National Low Carbon Green Growth Forum, leading national green growth initiative. He is also a member of National Green Energy Forum and a former member of the Future e-Government Strategy Board, one of Korea's most innovative e-government research programs.

Mark de Kruijk

Mark de Kruijk is director at the City of Amsterdam and general manager of Amsterdam's successful 'Amsterdam Topstad' program aimed at accelerating innovations in and around Amsterdam and enhancing the city's overall investment climate. In that role Mark oversaw the CUD Smart Work Center and Double U Smartwork projects as part of the Connected Urban Development commitments.

Dr Hyuk Je Kwon

Dr Hyuk Je Kwon is General Manager of Busan Development Corporation, South Korea. He is responsible for investment promotion for sustainable urban development. He is now a director of National Future Technology Association since 2009. He is an acting member of the regulatory reform committee for Busan Metropolitan City and an advisory member for Busan Green u-City project on which Busan city and Cisco are targeting to develop a showcase for green growth initiative. Dr Kwon was a senior advisor to the Mayor and the investment promotion bureau of Busan Metropolitan City. He holds a Ph.D of

Business Awards, and won the Director of the Year Award from The Hong Kong Institute of Directors in 2002 and Chevalier des Arts et des Lettres by the French government in 2005.

Geoff Mulgan

Geoff Mulgan is Director of The Young Foundation based in the UK since late 2004. Between 1997 and 2004 Geoff had various roles in the UK government including director of the Government's Strategy Unit and head of policy in the Prime Minister's office.

Prior to that he was the founder and director of the think-tank Demos. He has also been Chief Adviser to Gordon Brown MP and is an advisor to Australian Prime Minister Kevin Rudd.

Mulgan has been a leading thinker and writer on the social dimension of cities, including engagements with leading cities and universities in China. He is a visiting professor at the London School of Economics, UCL and Melbourne University and a board member of the UK Design Council

Patrick L. Phillips

Patrick L. Phillips is the Chief Executive Officer of the Urban Land Institute (ULI). Established in 1936, ULI is a global non-profit research and education organization with nearly 35,000 members representing all aspects of land use and development disciplines. Its mission is to provide leadership in the responsible use of land and in creating and sustaining thriving communities worldwide.

ULI, which currently has more than 150 employees and a budget of nearly \$53 million, is headquartered in Washington, D.C., and has offices in Los Angeles, London and Hong Kong. The organization has more than 60 district councils located in North America, Europe, the Middle East and Asia.

Phillips, a longtime member of ULI and a ULI trustee, has a career in the economic analysis of real estate and land use that spans more than 20 years. Prior to taking the position as the top staff executive at ULI, he was President and Chief Executive Officer of ERA AECOM (formerly Economics Research Associates). In that regard, he coordinated all aspects of ERA's organization, strategy, business

development, and service delivery. His own consulting practice focused specifically on the intersection of private investment and public policy. To further expand ERA's reach and impact, Phillips guided the successful sale of the company in 2007 to AECOM, a globally renowned provider of professional technical and management support services to a broad range of industries, including land use, transportation, environmental and energy.

His work at ERA AECOM focused on economic and feasibility analysis, strategic planning, and transaction-related services for real estate investors and developers, public agencies, financial institutions, universities, and non-profit organizations. This involved all major categories of urban land use, with a recent emphasis on the market, economic, and financial aspects of a new generation of downtown and suburban mixed-use projects. Under Phillip's direction, ERA provided consulting services for such notable development projects as Mockingbird Station in Dallas, Atlantic Station in Atlanta, and the repositioning of Kansas City's Country Club Plaza; as well as public planning projects for the Hudson Yards in New York City and Houston's Buffalo Bayou. Phillips has often advised public agencies and non-profit organizations on issues related to public-private partnerships for economic development. He is a frequent speaker on urban development issues, and is the author or co-author of eight books and numerous articles. In 2005, Phillips led a nationally prominent economic development team as part of the ULI advisory services panel making recommendations on post-Katrina rebuilding efforts in New Orleans. Patrick teaches at Harvard's Graduate School of Design Executive Education Program and at the Carey Business School of Johns Hopkins University. His academic training includes a graduate degree in public management and finance from Syracuse University's Maxwell School of Citizenship and Public Affairs. Before joining ERA, he was a senior manager with the real estate consulting group of Ernst & Young.

Richard Price

Mr. Price was appointed CEO, Asia at ING Real Estate Investment Management in 2008 and brings extensive experience to the business having lived and worked in Hong Kong and Beijing between 1993

Molly Webb

Molly Webb is Head of Strategic Engagement at The Climate Group and is responsible for developing and coordinating The Climate Group's activities across the ICT sector. She co-authored *SMART 2020: Enabling the low carbon economy in the information age* (June 20, 2008).

The initiative is developing the market for ICT-enabled climate change solutions. Prior to joining The Climate Group, Molly was a Researcher at Demos, a London based think tank, where she focused on science, innovation and environmental policy. She co-authored *The Disrupters: Lessons for low-carbon innovation from the new wave of environmental pioneers* (2007) and *South Korea: Mass Innovation comes of age* (2006).

She has an MSc in Environmental Policy at the London School of Economics.
