

Service Description: Advanced Services – Fixed Price

Collaborative Professional Services: Video Design Service - Integration (ASF-CPSA-VDI)

This document describes Advanced Services Fixed Price: Video Design Service - Integration available under the Collaborative Professional Services Program ("Program").

Related Documents: This document should be read in conjunction with the following documents also posted at www.cisco.com/go/servicedescriptions/: (1) Glossary of Terms; (2) List of Services Not Covered. All capitalized terms in this description have the meaning ascribed to them in the Glossary of Terms.

Direct Sale from Cisco to Authorized Channel. If you have purchased these Services directly from Cisco, this document is incorporated into your Collaborative Professional Services Agreement ("Agreement"), Collaborative Professional Services – General Service Terms under the Cisco Services Partner Program, a services exhibit that addresses transaction advanced services ("AS-T") or an equivalent agreement executed between you and Cisco which authorizes your participation in the Program. In the event of a conflict between this Service Description and your Agreement or equivalent services exhibit or agreement, this Service Description shall govern. For purposes of an AS-T exhibit executed between Cisco and Authorized Channel, this Service Description shall be deemed as a Statement of Work ("SOW").

CPS Video Development –Integration

Service Summary

The Collaborative Professional Services ("CPS") Video Design Service Integration provides remote planning and design assistance to Authorized Channel for the implementation of End User's Telepresence component from the integration service which include Detailed Design and Network Implementation Plan ("Services").

Services cover one (1) of the following end user's single video system:

- TelePresence Management Suite (TMS) Integration with AD/Exchange (Components Included: TMS Suite)
- Multipoint Control Unit (MCU) Integration for Multipoint/Interoperability (Components Included: MCU 4500/ MSE 8510 blade/ MCU 5300, TS

7010/ Media Services Engine (MSE) 8710 blade, Video Communications Server (VCS))

- Jabber Integration with TelePresence Management Suite (TMS) (Components Included: TMS, Jabber Video Clients, VCS)
- TCS integration for TelePresence (Components Included: TelePresence Content Server (TCS) and VCS)

Once Authorized Channel selects the video system bundle, the bundle cannot be changed or swapped by Authorized Channel at any time during duration of Services.

Deliverables

CPS Detail Design Document
CPS Network Implementation Plan

Location of Services

Services are delivered remotely to Authorized Channel.

Customer Requirements Validation Template Review

Analyze the prerequisite End User information provided by Authorized Channel for Authorized Channel to develop a customer requirements validation (CRV) document that will consider the End User's network future growth requirements and be consistent with Cisco leading practices.

Cisco Responsibilities

- Work with Authorized Channel to understand End User's Video environment and achieve a common understanding of End User's requirements for this project.
- Provide Authorized Channel with a Customer Requirement Validation (CRV) Template, to capture the required business and technical requirements that Authorized Channel must gather from End User.
- Review and provide the CRV document limited to: a). technology components that are included in the CPS Video Development-Integration service and b). architectural depiction of the technology components and their integration into the End User's existing network.
- Review the CRV document with Authorized Channel.

Authorized Channel Responsibilities

- Provide complete documented CRV template information within ten (10) Business Days of receipt from Cisco.
- Designate key Authorized Channel contacts including network architects and personnel who shall be available for ongoing information gathering and feedback during the services.
- Communicate TelePresence physical conference room requirements with End User to determine optimal facilities location for the TelePresence system.
- Review the CRV document with Cisco.

Detailed Design Development

The detailed design development focuses on activities for the Authorized Channel's design of TP services and applications. The detailed design does not include configurations for any third party applications.

Cisco Responsibilities

- Conduct telephone interviews with designated Authorized Channel covering the TelePresence detail design.
- Create and provide the CPS Detail Integration Design document, including: i). Internetwork Protocol (IP) addressing, ii). Local Area Network/Wide Area Network (LAN/WAN) Quality of Service (QoS) configuration for the selected TelePresence component, iii). Network services such as Dynamic Host Configuration Protocol/Domain Name Services/Trivial File Transfer Protocol/Network Address Translation (DHCP/DNS/TFTP/NAT) related to the Business Video system component requirements, iv). Power, network and physical environment requirements, and v). Business Video system component characteristics, including: i). Cisco Unified Call Manager (CUCM), Video Conferencing System (VCS), ii). Directory integration iii). Dial plan architecture, iv). Business Video scheduling and Management integration, v). Security requirement(s), and vi). Integration with existing 3rd Party H.323 video-conferencing system.
- Review the CPS Detail Design with Authorized Channel.

Authorized Channel Responsibilities

- Ensure that Authorized Channel key networking personnel are available to participate in telephone interview sessions as required to enable Cisco to understand End User's business and technical requirements for the network.
- Complete and provide the CPS Detailed Design Pre-requisite template information and documentation for the detail design within ten (10) Business Days of receipt from Cisco.

- Review the CPS Detail Design with Cisco.

Network Implementation Plan Development

A network implementation plan (NIP) that identifies the processes and the Cisco Product necessary to implement and operate the TelePresence system will be developed. The CPS NIP is a guide for the Authorized Channel's implementation engineer to follow. It contains node and site-specific installation requirement information and records the basic tests and actions for implementation. It also provides references to product documentation, such as administration guides and technical notes.

Cisco Responsibilities

- Provide remote review session(s) to review the CPS Detail Design with the Authorized Channel with emphasis on the order of the site-specific implementation process within End User's network and to determine the following: a). core/infrastructure implementation requirements; b). QoS requirements on site-to-site link(s) for TelePresence; c). Call control dial plan requirements; and d). directory integration requirements.
- Develop and provide a CPS network implementation plan, containing sequenced and detailed order of events for the TelePresence implementation, upon review of Authorized Channel-provided documentation which may include: a). TelePresence facilities qualification; b). TelePresence Network path qualification; c). Detail design for TelePresence; d). Site-specific contacts, locations and special considerations; e). Site-specific installation requirements; and f). Site-specific information from bill of materials (BOM) and delivery of equipment for staging and/or installation.
- Review the CPS Network Implementation Plan with Cisco.

Authorized Channel Responsibilities

- Complete and provide the CPS NIP Pre-requisite template information and documentation within ten (10) Business Days of receipt from Cisco.
- Provide and verify interface specifications and requirements within ten (10) Business Days of request from Cisco. For example, cabling standards and specifications for interconnect of Cisco Product and End User equipment.
- Provide information on distance and interference limitations of interface cables to be used at installation within ten (10) Business Days of request from Cisco.
- Provide Cisco with the test plan and interconnect process required by any third parties including but not limited to in country carrier/telco within ten (10) Business Days of request from Cisco.
- Provide within ten (10) Business Days of request from Cisco, required documentation, which may include the following: a). Site-specific implementation requirements and b). Site-specific information from BOM.

- Review the CPS Network Implementation Plan with Cisco.

General Authorized Channel Responsibilities

- Authorized Channel shall ensure that, End User understands and agrees i.) that Authorized Channel is providing its own proprietary services together with the Cisco Services herein; and ii) that in connection with Authorized Channel's performance of its own proprietary services, Authorized Channel must provide to Cisco certain End User information, documents and/or other technical data as required for Cisco's subsequent use in connection with Cisco Services.
- Authorized Channel will be solely responsible for documenting any recommendations made by Cisco during the delivery of the Services.
- Authorized Channel is solely responsible for all interactions and communications with End User and the provision of services and deliverables to End User.
- Authorized Channel acknowledges that the completion of Services is dependent upon Authorized Channel meeting its responsibilities as indicated herein.
- Identify Authorized Channel's personnel and define their roles in the participation of the Services. Such personnel may include but is not limited to: architecture design and planning engineers, and network engineers.
- Ensure Authorized Channel's personnel are available to participate during the course of the Services to provide information and to participate in scheduled information gathering sessions, interviews, meetings and conference calls
- Services provided by Cisco comprise technical advice, assistance and guidance only.
- Authorized Channel expressly acknowledges and agrees that it is solely responsible for the determination and implementation of End User's network design requirements and implementation of any recommendations provided by Cisco. Cisco shall not be responsible for the inability of Services to meet End User's network, design, business or other requirements and Authorized Channel shall remain responsible for the accuracy or completeness of the information during the provision of the Services described herein and for the final determination of End User's network design, architecture, implementation, business or other requirements.
- Authorized Channel expressly understands and agrees that the Services shall take place and be complete within ninety (90) calendar days from issuing a Purchase Order to Cisco for the Services herein.

License of Deliverables

Cisco grants to Authorized Channel a limited, revocable, non-exclusive, non-transferable license (a) to use, display, reproduce, modify, and distribute Deliverables; and (b) create, use, reproduce, and distribute derivative works of the Deliverables. The license herein is granted solely for Authorized Channel's support of End Users during the term of the agreement between Cisco and Authorized Channel and solely for use with Cisco products. Authorized Channel may not sublicense, to any persons or entity, any rights to reproduce or distribute the Deliverables. Cisco also may terminate this license upon written or oral notice to Authorized Channel, with or without prior notice.

Limitation

AUTHORIZED CHANNEL EXPRESSLY ACKNOWLEDGES AND AGREES THAT IT IS SOLELY RESPONSIBLE FOR THE DETERMINATION AND IMPLEMENTATION OF THEIR END USER'S NETWORK, DESIGN, BUSINESS, OR OTHER REQUIREMENTS. CISCO SHALL NOT BE RESPONSIBLE FOR THE FAILURE OF CISCO'S COLLABORATIVE PROFESSIONAL SERVICES, DELIVERABLES, REPORTS AND/OR RELATED SOFTWARE TO MEET END USER'S NETWORK, DESIGN, BUSINESS, OR OTHER REQUIREMENTS.

Representation of Cisco Brand

Authorized Channel agrees to comply with the Collaborative Services Branding guidelines located under "Resources" at <http://www.cisco.com/web/partners/services/programs/collaborative/index.html>, which is incorporated herein by reference.

Invoicing and Completion

Invoicing

Services will be invoiced upon completion of the Services.

Completion of Services

Cisco will provide written notification upon completion of the Services to Authorized Channel. The Authorized Channel shall within five (5) Business Days of receipt of such notification provide written acknowledgement of Cisco's completion of the Services. Authorized Channel's failure to acknowledge completion of the Services or to provide reasons for rejection of the Services within the five (5) Business Day period signifies Authorized Channel's acceptance of completion of the Services in accordance with this Service Description.
