

## Service Description: Advanced Services – Fixed Price

# Cisco Knowledge Transfer Service for EPN GPON – Remote (ASF-SP1-G-EPN-KTGR)

This document describes Advanced Services Fixed Price: Cisco Knowledge Transfer Service for EPN GPON – Remote.

**Related Documents:** This document should be read in conjunction with the following documents also posted at [www.cisco.com/go/servicedescriptions/](http://www.cisco.com/go/servicedescriptions/): (1) Glossary of Terms; (2) List of Services Not Covered. All capitalized terms in this description have the meaning ascribed to them in the Glossary of Terms.

**Direct Sale from Cisco.** If you have purchased these Services directly from Cisco for your own internal use, this document is incorporated into your Master Services Agreement, Advanced Services Agreement, or other services agreement covering the purchase of Advanced Services-based services with Cisco ("Master Agreement"). If no such Master Agreement exists, then this Service Description will be governed by the terms and conditions set forth in the Terms & Conditions Agreement posted at <http://www.cisco.com/legal/advancedservices.html>. If you have purchased these Services directly from Cisco for resale purposes, this document is incorporated into your System Integrator Agreement or other services agreement covering the resale of Advanced Services ("Master Resale Agreement"). If the Master Resale Agreement does not contain the terms for the Purchase and Resale of Cisco Advanced Services or equivalent terms and conditions, then this Service Description will be governed by the terms and conditions of the Master Resale Agreement and those terms and conditions set forth in the SOW Resale Terms & Conditions Agreement posted at: <http://www.cisco.com/legal/advancedservices.html>. For purposes of the SOW Resale Terms and Conditions this Service Description shall be deemed as a Statement of Work ("SOW"). In the event of a conflict between this Service Description and the Master Agreement or equivalent services exhibit or agreement, this Service Description shall govern.

**Sale via Cisco Authorized Reseller.** If you have purchased these Services through a Cisco Authorized Reseller, this document is for description purposes only; is not a contract between you and Cisco. The contract, if any, governing the provision of this Service will be the one between you and your Cisco Authorized Reseller. Your Cisco Authorized Reseller should provide this document to you, or you can obtain a copy of this and other Cisco service descriptions at [www.cisco.com/go/servicedescriptions/](http://www.cisco.com/go/servicedescriptions/).

## Cisco Knowledge Transfer Service for EPN GPON – Remote

### Service Summary

Cisco shall provide Cisco Knowledge Transfer Services for EPN GPON - Remote to Customer for training on the architecture, implementation, and deployment aspects limited to one (1) Cisco Metro Ethernet (ME) 4600 Series platform as well as address the differences between point-to-point topologies like Ethernet and multipoint technologies like Passive Optical Network (PON) and Gigabit capable PON (GPON). Remote delivery of the service will be performed using Cisco WebEx.

### Services

- Instructor-Led Knowledge Transfer

### Location of Services

- Services are delivered remotely via WebEx.

### Instructor-Led Knowledge Transfer

## Cisco Responsibilities

- Designate a single point of contact ("Cisco Knowledge Transfer Coordinator") to work with Customer to schedule and manage attendee registration and email notifications.
  - Provide one (1) instructor led workshop limited to one (1) instructor across four (4) consecutive days, each being up to four (4) hours, over WebEx; delivered to no more than twenty-five (25) Customer participants. The Services shall be delivered no earlier than fifteen (15) business days after the acceptance of the Purchase Order. Workshop includes the following curriculum:
    - Fiber to the x (FTTx) and GPON Technology Fundamentals
    - Cisco ME 4600 Series Optical Line Terminal (OLT) and Optical Network Terminal (ONT) Architecture
    - Cisco ME 4600 Series based network architecture and design

- Redundancy and high availability in Cisco ME 4600 Series based network
- Network provisioning and configuration best practices
- Network management, software upgrade and monitoring
- Business and residential services using Cisco ME 4600 Series
- Deployment guidelines
- Troubleshooting principles
- Using Cisco ME 4600 Series Element Management System (EMS) solution
- Generate and provide WebEx link for Customer to dial in for all four (4) days of the knowledge transfer.

#### **Customer Responsibilities**

- Designate a single point of contact ("Customer Contact") to coordinate and disseminate all Cisco communication including attendee registration and email notifications. Work with Cisco to schedule the training workshop and provide appropriate Internet connectivity for attendees to join the workshop via WebEx.
- Designate up to twenty-five (25) participants to attend the scheduled knowledge transfer workshop.

#### **General Customer Responsibilities**

- All information (such as but not limited to: designs, topologies, requirements) provided by Customer is assumed to be up-to-date and valid for the Customer's current environment. Cisco Services are based upon information provided to Cisco by Customer at the time of the Services.
- Customer acknowledges that the completion of Services is dependent upon Customer meeting its responsibilities as indicated herein.
- Identify Customer's personnel and define their roles in the participation of the Services. Such personnel may include but is not limited to: architecture design and planning engineers, and network engineers.
- Ensure Customer's personnel are available to participate during the course of the Services to provide information and to participate in scheduled information gathering sessions, interviews, meetings and conference calls.

- Customer expressly understands and agrees that the Services provided by Cisco comprise technical advice, assistance and guidance only.
- Customer is responsible for determination of its requirements, and Customer shall retain overall responsibility for any business process impact and any process change implementations.
- Customer shall provide documentation and information that sets out and describes in brief the network architecture and network goals and requirements prior commencement of the Services.
- Customer expressly understands and agrees that the Services shall take place and complete within ninety (90) calendar days from issuing a Purchase Order to Cisco for the Services herein.
- With the exception of interactive discussion during the training, Customer understands that the Service excludes any customization of course content, and any additional, specific training outside the scope of the planned content will need to be purchased under a separate statement of work.
- Information delivered by Cisco cannot be recorded or distributed internally or externally without consent from Cisco.

#### **Invoicing and Completion**

##### **Invoicing**

Services will be invoiced upon completion of the Services.

##### **Completion of Services**

Cisco will provide written notification upon completion of the Services to Customer. The Customer shall within five (5) Business Days of receipt of such notification provide written acknowledgement of Cisco's completion of the Services. Customer's failure to acknowledge completion of the Services or to provide reasons for rejection of the Services within the five (5) Business Day period signifies Customer's acceptance of completion of the Services in accordance with this Service Description.
