

Are You Maximising Your Investments?

Cisco UCS Integrated Infrastructure for Red Hat OpenStack

Cisco® is teaming with Red Hat, the industry's open source leader, to offer Cisco UCS® Integrated Infrastructure for Red Hat OpenStack Platform. Our integrated solutions will help your organisation accelerate cloud deployments, while retaining control and choice over your environment through open and interoperable cloud solutions.

Deciding how to acquire Data Center technology is every bit as important as deciding what to acquire.

Flexibility and Predictability

Cisco Capital® Financing for UCS OpenStack gives you the financial flexibility to acquire hardware, software, services and complementary third party equipment all in one predictable payment. Our refresh options will also provide you the opportunity to update your technology sooner.

Realise Technology Alignment

Our end-to-end, affordable, and competitive financing solutions allow you to:

- Design a customised funding solution that will address your business needs
- Bring investments forward to accelerate competitive advantage and ROI

- Get the most out of your Cisco investment and optimise the technology lifecycle
- Lower the total solution cost with regular technology refresh milestones
- Protect capital and alleviate budget pressure
- Spread your total costs over time by incorporating implementation, service and maintenance overhead into one financing solution

Take a More Strategic Approach to Data Center Acquisition

With financing from Cisco Capital, technology acquisition can be treated not as a cost, but as an opportunity to add operational value and deliver against your evolving organisational imperatives.

Take advantage of a complete financing solution for all components for your UCS OpenStack investment.

Whether you are building a new facility, or upgrading your existing data center platform, with our financial solutions, you can expect:

- Competitive interest rates to ease the cost of migration
- Attractive refresh options so you can update your existing server and blade technology sooner
- One contract for hardware, software and services, enabling greater transparency of total cost of ownership and a simpler internal cost recovery model
