Agenda

- **Go To Market Update**
 - “What, Where, How and When” of the Cisco and Citrix Partner Accelerator
- **Solution Update**
 - Introduction to the Cisco Solution for Citrix VDI-in-a-Box
- **Technical Update**
 - Special Preview: Cisco VXi 2.6

Go To Market Update

“What, Where, How and When” of the Cisco and Citrix Partner Accelerator

Marilyn Cepuran

Business Development Manager, Cisco WW Partner Org

John Barnett

Systems Engineer, Cisco WW Partner Org

Stephen Teh

WW Channel Marketing Manager, Citrix Systems

Cisco and Citrix Partner Solution Accelerator Framework

Enablement

Build Competency

- Learning maps
- Steps for Success assets
- Collaborative partner services
- Best practices

Tools

Compress the Sales Cycle

Sales

- Demos, Assessments & POCs
- PDI Helpdesk
- Solution Portal
- TCO/ROI tools
- SIP Cisco Validated Templates (CVT)

Marketing

- Campaigns
- Seminar-In-a-Box
- Success Stories

Differentiation

Build Your Brand

- Solution Identifier
- Partner Locator
- Partner Press Kits
- Solution Incentive Program
- Master Cloud Builder*

Cisco and Citrix Partner Accelerator Welcome Guide

VXI Partner Accelerator Pre-Requisites

Infrastructure		Desktop Virtualization		Storage <i>One or both vendors</i>	
Cisco		Citrix		EMC	NetApp
<p>Borderless Networks BN Architecture Specialization OR Advanced Routing & Switching & Advanced Wireless Specialization + Collaboration Advanced Collaboration Architecture Specialization OR Master Collaboration OR Advanced UC + Data Center Data Center Arch Specialization OR Unified Computing Technology Specialization</p>		<p>XenDesktop Certification (All Levels)</p>		<p>Technology Architect Certificate – VNX Solutions Specialty</p>	<p>Star or FlexPod Premium Partner</p>

Joint Solution Portal

Welcome to the Solutions Acceleration Partner Center

A one-stop for Cisco channel partners to get sales and marketing materials to assist in driving business for our joint solutions.

- www.gopartnersolutions.com
- CCO credentials provides immediate access
- Sales and marketing tools and resources

Guided System Selling Overview

Cisco's next generation Guided System Selling platform

- Easier configuration of complex systems
 - Guided configuration based on validated system designs
 - Novice and expert users can select from a set of Pre-Defined/Validated designs, or answer a few questions in order to see the types of systems available to address customer business needs
 - Bill of Materials (BOM) ready to import as a config set for final Config, Quote, and Order in Cisco Commerce Workspace (CCW)
 - Fully integrated with CCW
 - BOM from GSS can also be exported to Excel or XML
- GSS will initially support the following content:
 - UC - Business Edition, Endpoints
 - Virtual Experience Infrastructure (VXI)

Partner Training Requirements

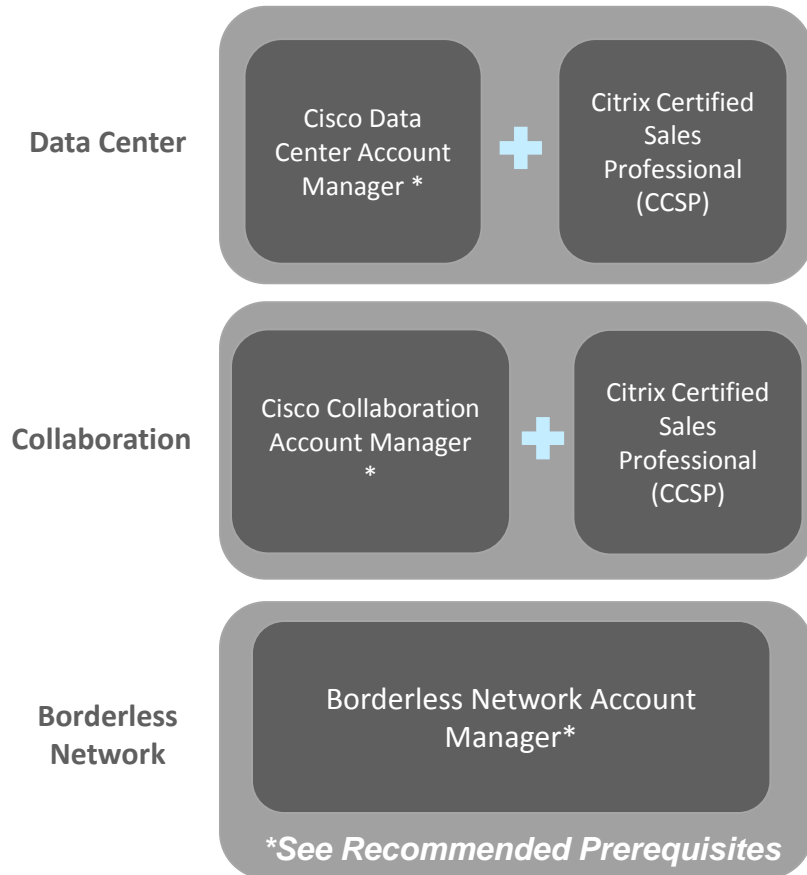

Each **Cisco VXi Accelerator Partner** must meet all of the requirements below (per Country):

- Each architecture practice (Data Center, Borderless, Collaboration) must train a person for each role – Sales, Pre-sales, Post-sales - through the VXi cross architecture learning map
- Normally this would take 9 individuals, however to be consistent with Cisco practices, one (1) individual may fulfill up to two (2) roles. Thus requirements can be fulfilled with as few as 6 individuals – 2 sales, 2 pre-sales, and 2 post-sales.
- Example: A sales person with pre-requisite certifications for both Collaboration and Borderless may fulfill both the Collaboration and Borderless Sales Role.
- Pre-requisites for each role are defined and consistent with Cisco and Partner specialization requirements to sell the products within the VXi solution
- There is a separate learning map for each role (Sales, Pre-Sales, Post-sales).
- Partner Investment (per individual, incremental to pre-requisite certifications):
 - Sales – 7 Hours online training (via PEC)
 - Pre-Sales – 9 Hours online training (via PEC)
 - Post-Sales – 6 Hours online (PEC) + 16 hours ILT

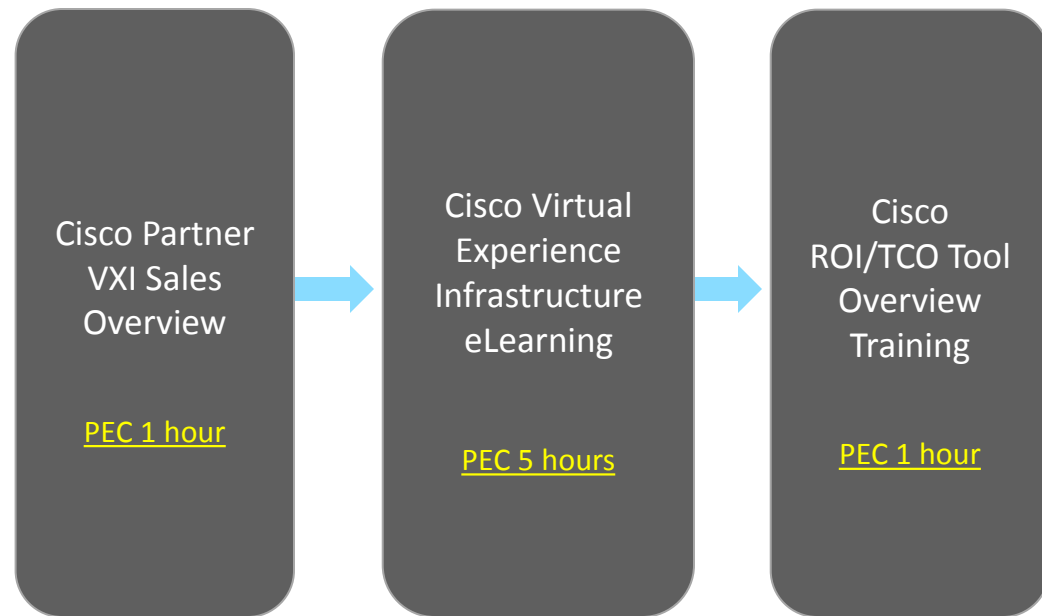

Cisco VXi Solution Accelerator Learning Map

Cisco VXi Sales (Citrix)

Recommended Certifications

VXi Baseline Training

OR

Approved Learning Partner VXi Offering (See Notes)

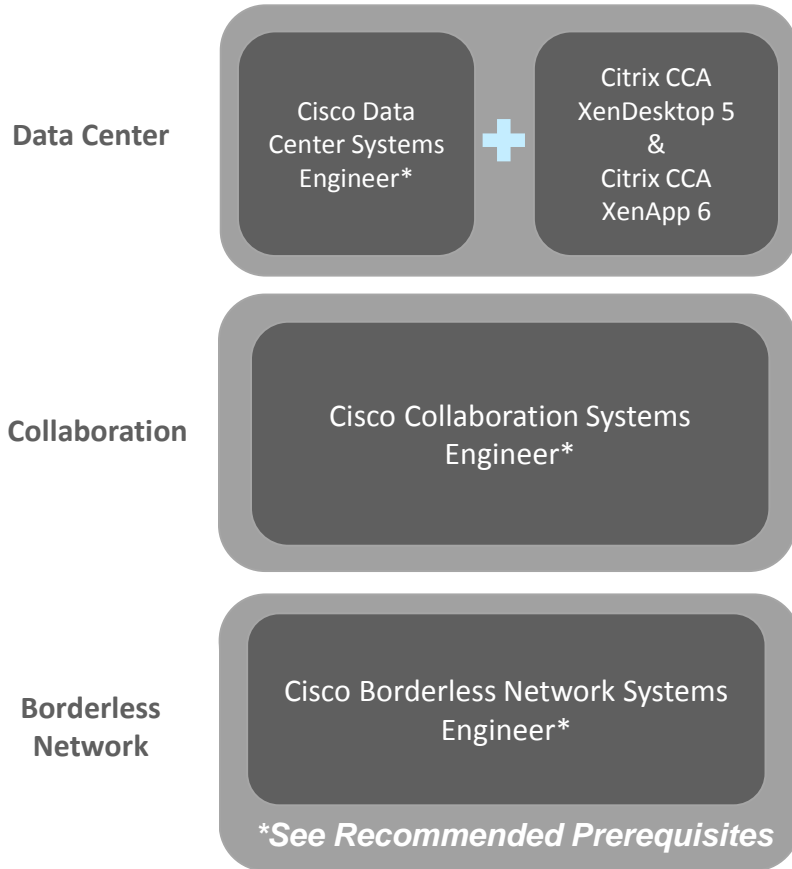

Organizational Requirements: Minimum two (2) individuals to fulfill three (3) Sales Specialist prerequisite roles required (Data Center, Collaboration, Borderless Networks)

Sales/Account Manager Recommended Prerequisites

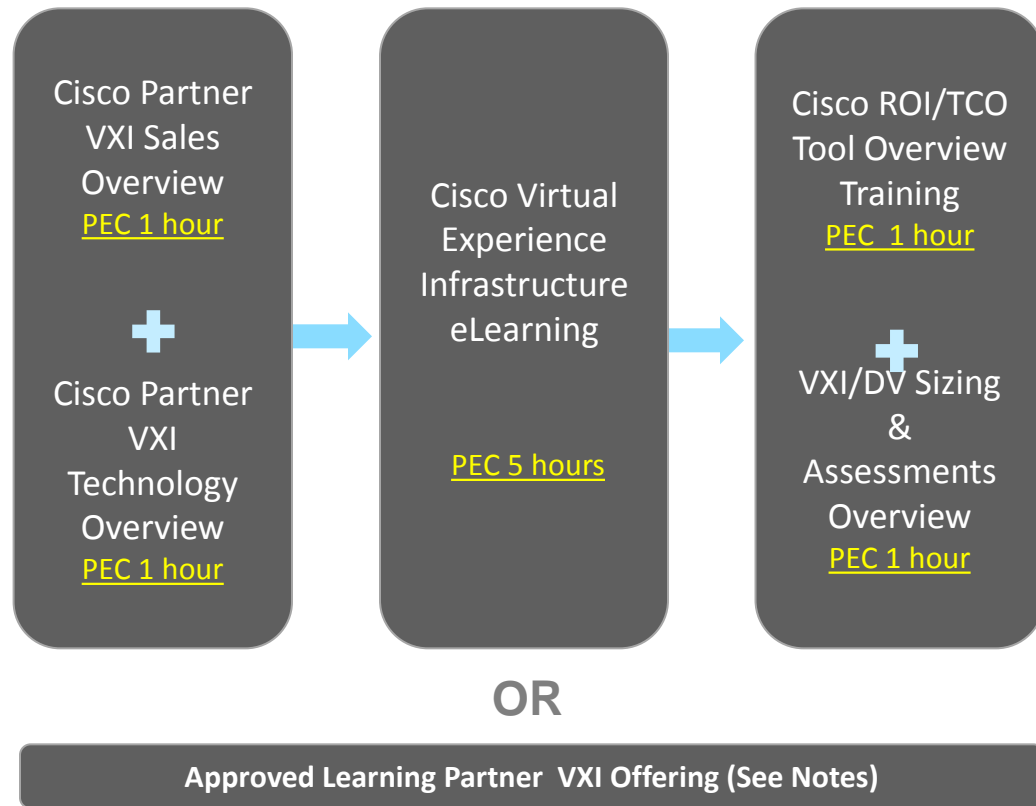

Architecture	Sales/Account Manager Specialist
Cisco Data Center	<u>Data Center Sales Specialist for Architectures</u> OR <u>Cisco Sales Specialist for Unified Computing Technology</u> AND <u>Citrix Certified Sales Professional</u>
Cisco Collaboration	<u>Cisco Sales Specialist for Collaboration Architecture</u> OR <u>Cisco Advanced IP Communications Sales Specialist</u> AND <u>Citrix Certified Sales Professional</u>
Cisco Borderless Network	<u>Borderless Networks Sales Specialist for Architecture</u> OR <u>Cisco Routing and Switching Sales Specialist</u> OR <u>Advanced Wireless LAN Sales Specialist</u>

Cisco VXI Technical Pre-Sales (Citrix)

Recommended Certifications

VXI Baseline Training

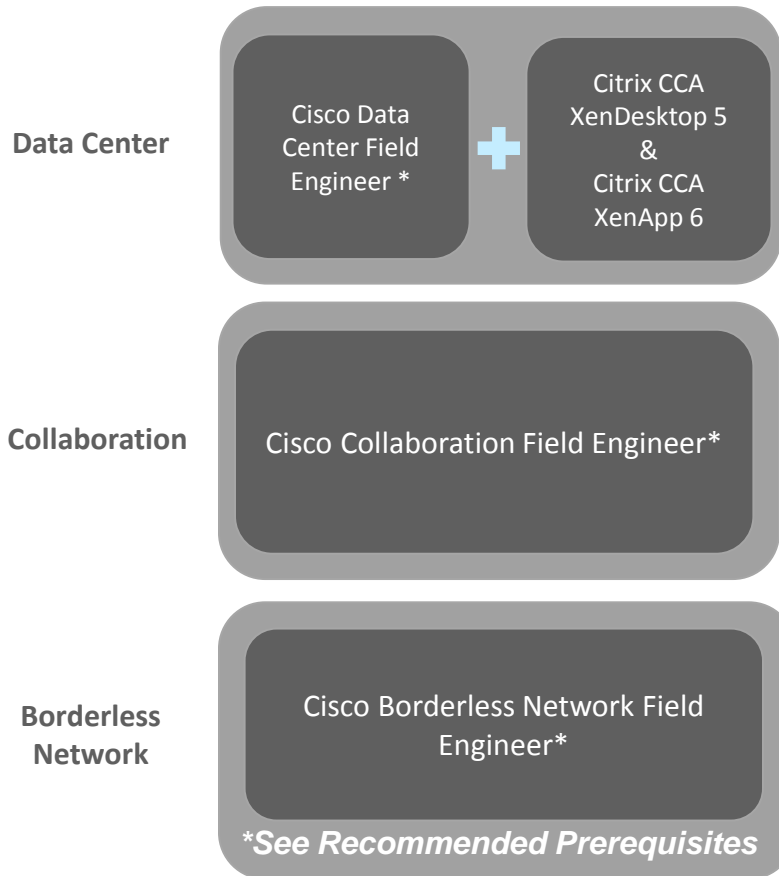

Organizational Requirements: Minimum two (2) individuals to fulfill three (3) Pre-Sales Specialist roles required (Data Center, Collaboration, Borderless Networks)

Technical Pre-Sales/Systems Engineer Recommended Prerequisites

Architecture	Technical Pre-Sales Specialist
Cisco Data Center	<u>Data Center Architecture Design Specialist</u> OR <u>Cisco Unified Computing Technology Design Specialist</u> AND <u>Citrix Certified Administrator for XenDesktop 5</u> AND <u>Citrix Certified Administrator for XenApp 6</u>
Cisco Collaboration	<u>Collaboration Architecture Design Specialist</u> OR <u>Cisco IP Telephony Design Specialist</u>
Cisco Borderless Network	<u>Cisco Borderless Networks Architecture Design Specialist</u> OR <u>Cisco Routing and Switching Solutions Specialist</u> OR <u>Advanced Wireless LAN Pre Sales Specialist</u>

Cisco VXI Technical Post-Sales (Citrix)

Recommended Certifications

VXI Baseline Training

OR

Approved Learning Partner VXI Offering (See Notes)

Organizational Requirements: Minimum two (2) individuals to fulfill three (3) Post-Sales Specialist roles required (Data Center, Collaboration, Borderless Networks)

Technical Post-Sales/Field Engineer Recommended Prerequisites

Architecture	Technical Post-Sales/Field Engineer
Cisco Data Center	<u>Data Center Support for UC Specialist</u> OR <u>Cisco Unified Computing Technology Support Specialist</u> AND <u>Citrix Certified Administrator for XenDesktop 5</u> AND <u>Citrix Certified Administrator for XenApp 6</u>
Cisco Collaboration	<u>Collaboration Support Specialist 1</u> OR <u>Cisco Lifecycle Services for Advanced Unified Communications</u>
Cisco Borderless Network	<u>Cisco Borderless Networks R&S Support Specialist</u> OR <u>Cisco Borderless Networks Security Support Specialist</u> OR <u>Cisco Borderless Networks Mobility Support Specialist</u> OR <u>Cisco Routing and Switching Field Specialist</u> OR <u>Advanced Wireless LAN Implementation Specialist</u>

Cisco Data Center VDI with XenDesktop 5 Implementation Technical Boot Camp (2-Day)

- Americas

- ***New York, NY***
 - **Date:** October 16 - 17, 2012
 - **Location:** Cisco Office
One Penn Plaza, 6th Floor
New York, New York 10119
- ***Irving, TX***
 - **Date:** October 30 - 31, 2012
 - **Location:** Cisco Office,
7301 State Hwy. 161, Granite Plaza,
Suite 200, Irving, TX 75039
- Register for Americas sessions today via [CVENT](#)

- APJC

- ***Sydney, Australia***
 - **Date:** November 12 – 13, 2012
 - **Location:** TBD
- ***Singapore***
 - **Date:** November 15 – 16, 2012
 - **Location:** TBD
- Initial classes by invitation only. Contact your Cisco Partner Account Manager for more details.

- EMEAR

- Locations and dates in planning. Contact your Cisco or Citrix Account Managers for location and date requests.

POC and Assessment Funding Availability

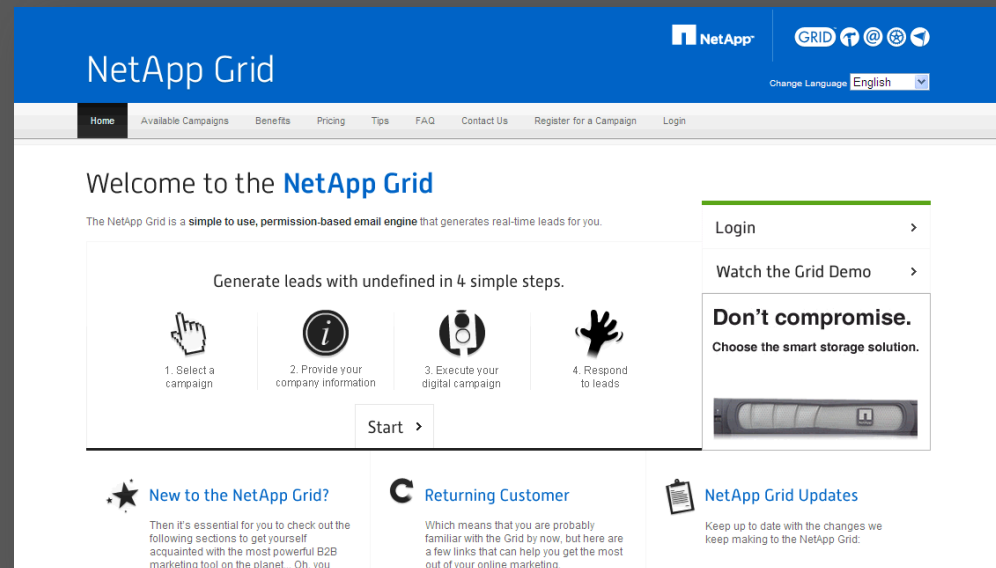

- \$10K per POC available to eligible partners now
 - Minimum 500 seats of XenDesktop
 - Minimum Citrix XenDesktop on Cisco UCS
- \$7.5K assessment funding
 - Liquidware Labs or similar
 - Combines 3 assessments
- Must fulfill all onboarding activities as required before pay out

Questions about POC Funding eligibility and application?

Stephen.teh@citrix.com

The “Grid” Marketing Campaign

- XenDesktop on FlexPod
- Customizable Marketing Campaign
- Multi-touch Modules
- Webcast content
- Event Module
- Appointment Setting
- Pre-packaged and paid for qualified Partners

XenDesktop on FlexPod Partner is the minimum criteria

Solution Update

Introduction to the Cisco Solution for VDI-in-a-Box

Ashok Rajagopalan

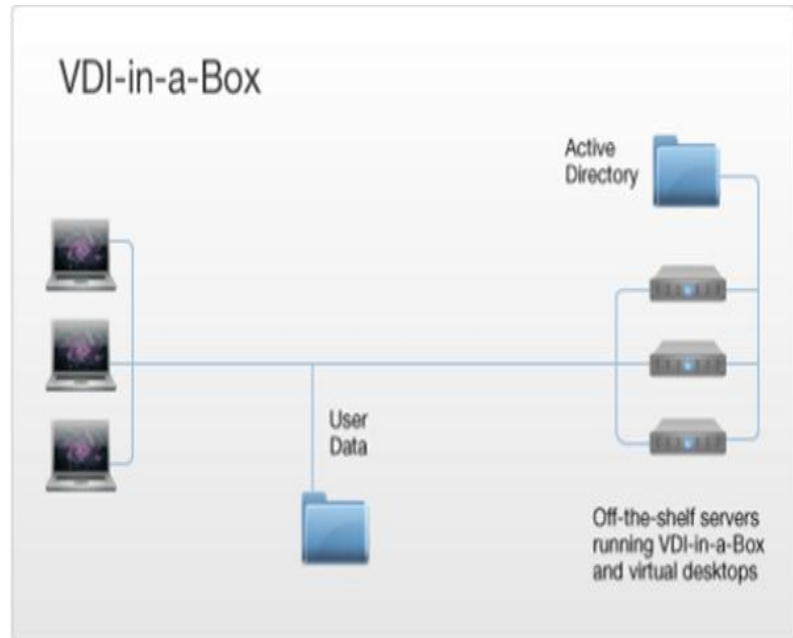

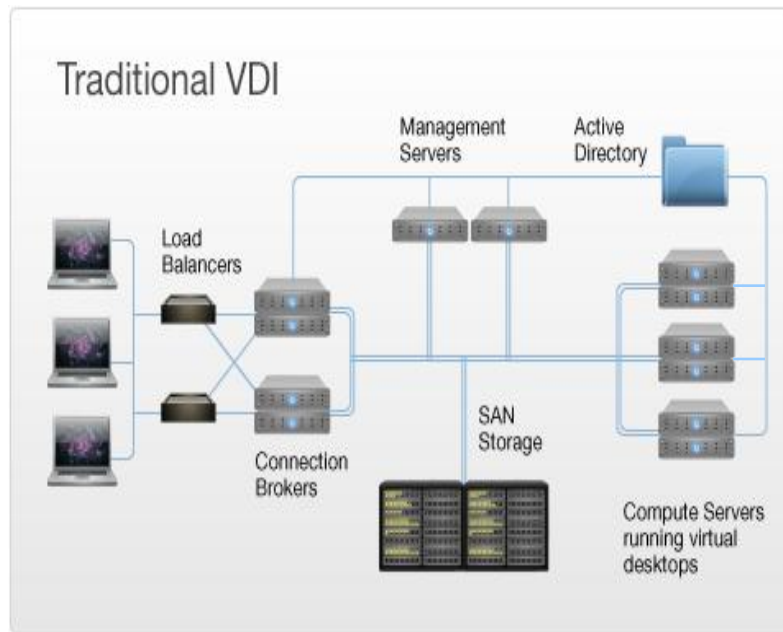

Server Access Virtualization Technology Group, Cisco
Systems

Market Opportunity

- Small-and medium-sized businesses, and the commercial market has greater than a 70 percent PC installed base
- Approximately 50 percent of midsize businesses in developed regions are testing or deploying desktop virtualization today
- Midsize businesses that deploy desktop virtualization are planning to virtualize 30 percent of PCs
- Target Market
 - Organizations with less than 500 employees (between 50 – 500)
 - Uniform workload requirements
 - No scale-out or expansion plans
 - Educational institutions, state and local government
 - Services firms, regional banks, credit unions

Source: Gartner: Predicts 2012: Midsize Businesses Seek Technologies to Simplify Their IT Environments, 11 November 2011 Citrix/Kaviza Market data

Traditional enterprise VDI... ...Simple VDI

Shorter sales cycle for VDI-in-a-Box

Only 45-90 days instead of months with the traditional VDI solution

VDI Adoption Barriers

Solution cost

Complexity of deployment and management

User experience

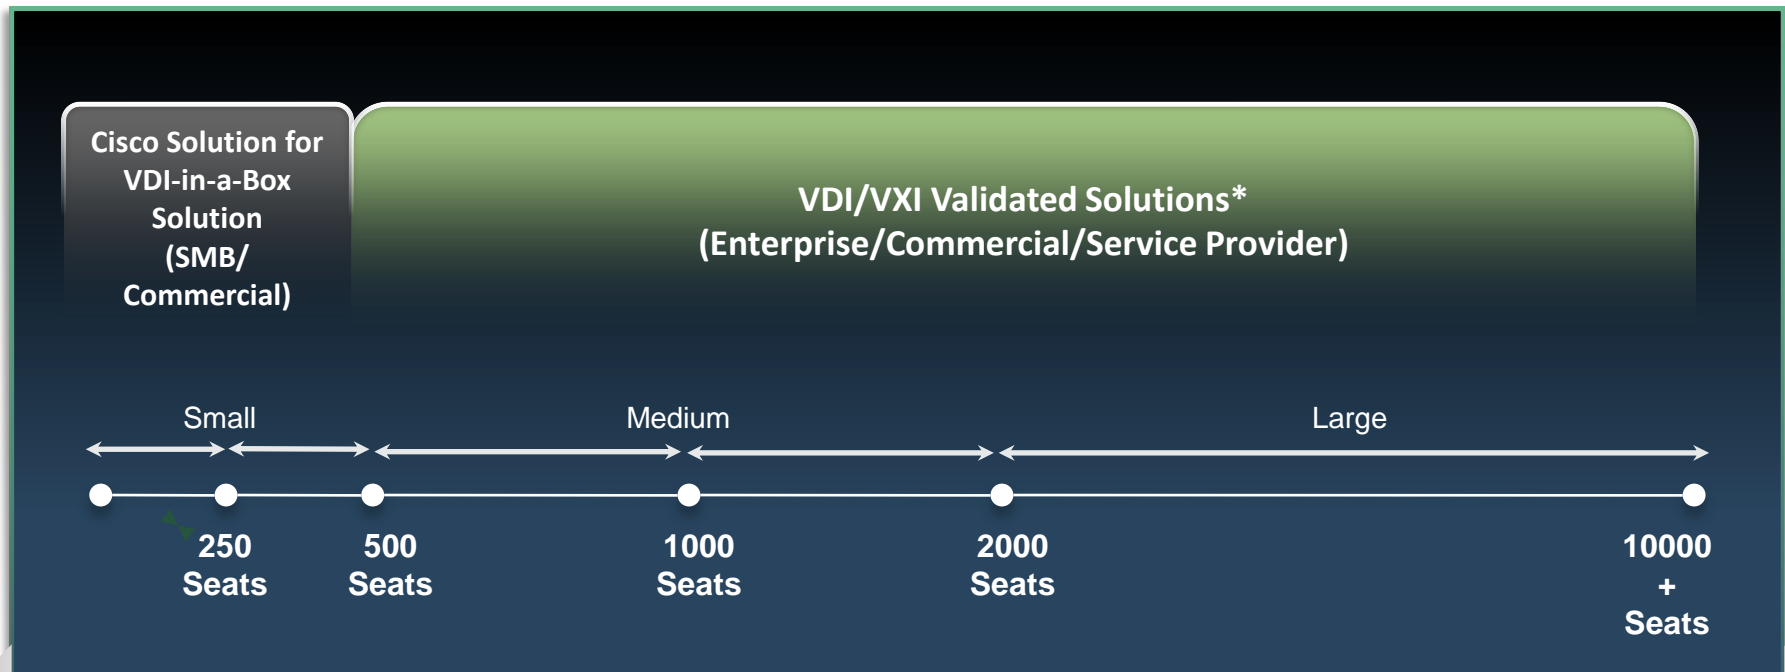

Lack of data center or SAN environments

Desktop virtualization expertise

Systems integration

Solution Positioning (Based on Net Desktop Seats)

*Application Virtualization and VDI use cases for the enterprise and commercial segments. Application virtualization use cases for service providers. These validated configurations may be based on Cisco® UCS B-Series or C-Series servers.

Cisco Solution for VDI-in-a-Box Solution

**Cisco UCS® C260 M2
Extended Memory
Rack-Mount Server**

Easy, all-in-one VDI

Simple to install and manage

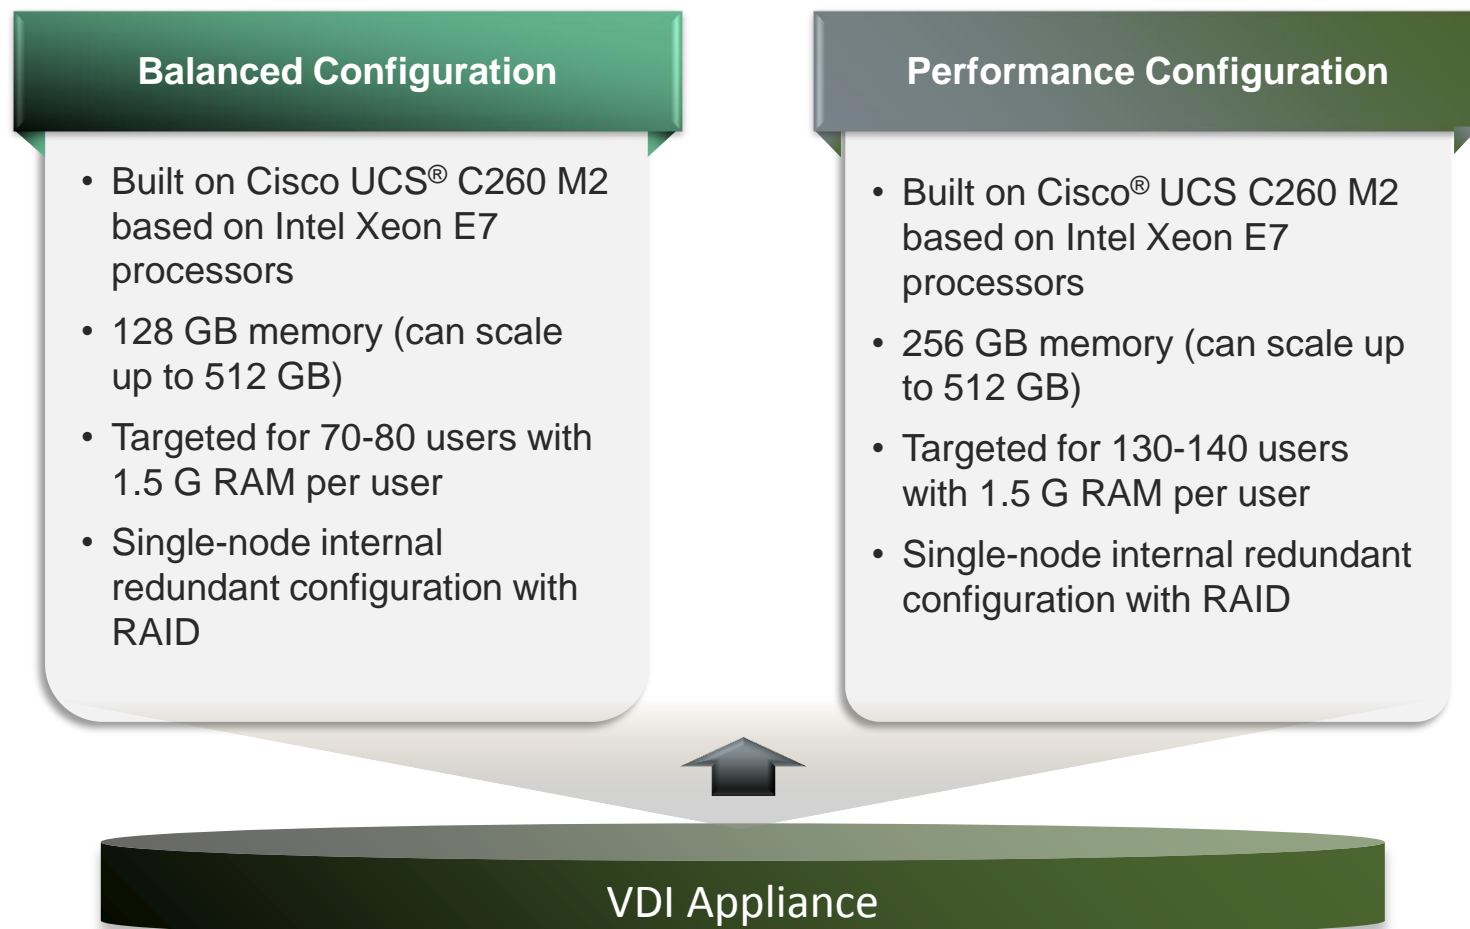

Full HDX user experience

Focused on sub-500 user environments

Perfect for small- to medium-sized businesses, public sector, education, and enterprise departmental customers

Lowest cost per desktop in the industry

VDI Appliance: Configurations

Solution Differentiation

Simplified Manageability

SNMP-based monitoring and XML-based BIOS configuration

Rapidly Deployable

Pre-validated configuration

Enterprise Reliability

Built with software mirroring and multi-level hardware redundancy

Highly Available

Fully redundant and reliable configuration

I/O Performance

Dual port lossless Ethernet 10 Gigabit Ethernet

Industry-Leading Support

Cisco TAC support for this integrated solution

Cost and Performance Optimized

Lowest cost per desktop solution with enterprise performance

Use Cases

Task Worker Desktop

Clerical Worker Desktop

- Simple Windows environment
- Single device access (thin-client)
- 2-3 applications used most of the time
- 1.5 to 2 GB per user
- Small office, enterprise home user

Business Process Desktop

- Customized Windows environment
- Multiple device access
- 4-6 applications used most times
- 2 to 3 GB per user
- Centralized data to protect IP

Knowledge Worker Desktop

- Simple Windows environment
- Multi-media and HDX usage
- 2-3 applications used most of the time
- 2 to 4 GB per user
- Education: kindergarten through high school, small office users

Technical Update

Special Preview: Cisco VXi 2.6

Cisco VXI 2.6 – What's New?

- New UCS hardware - including:
 - UCS B200 M3 blade server
 - VIC 1240 Adapter Cards
 - UCS 6248UP Fabric Interconnect
 - UCS Manager 2.0.2 Software
- Solid State Drives on the UCS B-Series are now available and used for caching data in the VXI solution
- Citrix products are an integral part of the Cisco VXI system, and provides the core functionality of managing and delivering virtual desktops and applications. Cisco VXI supports Hosted Virtual Desktops, and now includes Hosted Shared Desktops via XenApp. This release of Cisco VXI validates Citrix XenDesktop 5.6 and XenApp 6.5.

Cisco VXi 2.6 – What's New?

- Policy based Network Access control using Identity Services Engine (ISE 1.1) continues to evolve merging Bring Your Own Device (BYOD) models into VXi
- Cisco ASA 9.0 has been validated for Clientless Access using Citrix Receiver. In this scenario, the end-user device can access XenDesktop and XenApp without first setting up a VPN connection (such as Cisco AnyConnect).
- Cisco Unified Contact Center has been integrated into the solution to accommodate Virtualized Call Centers
- Cisco Jabber has implemented for Presence, IM and Hard Phone control from within the Hosted Virtual Desktop and Hosted Shared Desktops
- Microsoft System Center has been added as a management tool integrating with UCS Manager
