

“Thanks to WebEx, our professors can now teach their classes from wherever they are. Geography is no longer a factor, and we maximize our faculty’s knowledge and productivity.”

—John DeAngelo, Associate Dean of IT, Fox School of Business, Temple University

Extend campus borders and enrich educational experiences with Cisco WebEx online collaboration.

Highlights

- Connect swiftly and securely with students, teachers, and colleagues through the Cisco WebEx Collaboration Cloud.
- Reach students where, when, and how they’re most receptive to learning.
- Tailor instruction to individuals by using advanced interactive features.
- Deliver lectures and tutorials from anywhere to anywhere.
- Enhance communication internally and externally to keep all members of the education community on the same page.
- Remove the burdens of support and maintenance through the WebEx Software-as-a-Service (SaaS) delivery model.

Using Cisco WebEx™ technology, educators at post-secondary schools can reach students across the boundaries of the traditional brick-and-mortar campus. They can also collaborate and share research with colleagues and institutions scattered across the globe.

Discover why more than 300 higher education institutions are already using WebEx® solutions to facilitate meetings, engage students, conduct staff trainings, promote faculty productivity, offer remote support, and deliver dynamic e-learning opportunities.

Attract the best and brightest.

Expand your research, develop professionally, and bring additional perspectives to your instruction. WebEx technology delivers the rich interactive capabilities students desire on the devices they use most (including mobile phones). And it enables far-flung academics to meet and collaborate as if they were in the same room.

Maximize instruction while minimizing resource usage.

Because WebEx technology requires no additional hardware or software—employing a SaaS delivery model that

removes the burden of maintenance and support—it’s easy for academic institutions to extend traditional offerings to non-traditional students. WebEx also enables schools to maximize existing resources by using live and recorded online classes, online office hours, virtual study groups, and web-based resource libraries.

Work locally, collaborate globally.

Schools are looking for new ways to cut costs and reduce carbon emissions. WebEx technology has the answer, providing instant connections locally and globally through the Cisco WebEx Collaboration Cloud. Academics can share research, attend conferences, and collaborate on projects across the globe without leaving campus. And when they do attend conferences, they can take advantage of solid connectivity and interactive features to maintain their day-to-day engagement with students.

Provide greater educational opportunities to more students.

Discover WebEx solutions for higher education.

By taking advantage of web-based meetings, training, and conferencing capabilities afforded by WebEx technology, educators at post-secondary schools can reach students across the boundaries of the traditional brick-and-mortar campus. Institutions of higher education can benefit from the following WebEx solutions:

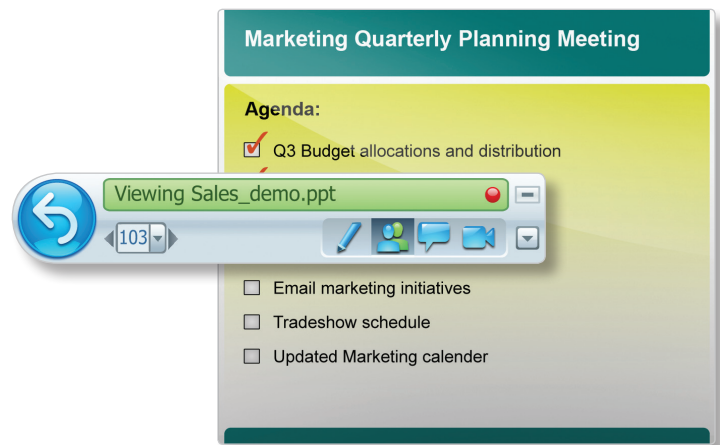

Cisco WebEx Training Center. Use interactive features like real-time testing and grading, instant feedback, assessment tracking, breakout sessions, and hands-on labs to deliver a variety of dynamic e-learning opportunities.

Cisco WebEx Meeting Center. Meet online in real time with faculty, staff, and students to keep everyone on the same page without requiring all interested parties to assemble in one place.

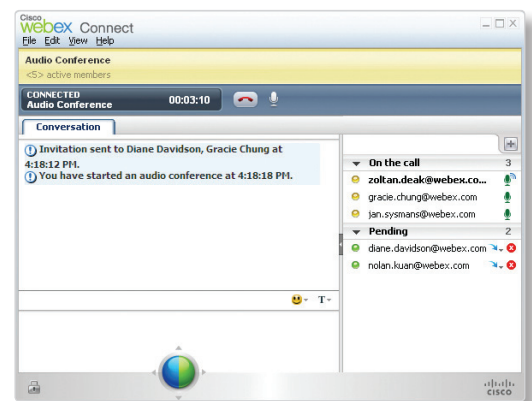

Cisco WebEx Support Center. Support remote users as if they were in the same room, viewing and controlling remote desktops and applications, installing and transferring files, recording sessions, and applying patches and updates in real time.

Cisco WebEx Event Center. Cast a wider net. Use WebEx Event Center to facilitate and manage online conferences and interactive events, bringing together geographically dispersed students, teachers, and researchers.

Cisco WebEx Connect. Streamline communications and accelerate decision-making. Ensure that education continues after the school day ends by taking advantage of presence, enterprise IM, audio, VoIP, video, file sharing, and integrated web conferencing to collaborate across time zones and platforms.

Give attendees a clear, full-screen view with a discreet toolbar for navigation.

Drive business decisions faster. See who's available to meet immediately, then click on that person's name to start an instant audio or video conference.

Our full suite of applications is regularly updated to meet the latest system compatibility needs. Please visit **www.webex.com** to see system requirements.

Languages supported:

English, Spanish, Brazilian Portuguese, French, Italian, German, Swedish, Japanese, Korean, and Chinese (simplified and traditional)
