

“Before WebEx, teachers working in different locations would meet maybe twice a year. Now, they can meet once a week to share information. With WebEx, you don’t have to wait to share ideas. You can share them at any time.”

—Tom Skoglund, Instructional Technology
Facilitator, Anoka-Hennepin School District

Innovate to educate: Use WebEx solutions to connect students, teachers, parents, and administrators.

Highlights

- Connect swiftly and securely with students, teachers, and parents through the Cisco WebEx Collaboration Cloud.
- Tailor instruction to individual learning styles with advanced interactive features.
- Hold district-wide teacher training sessions and meetings without requiring educators to leave their campuses.
- Reach parents at the times and places most convenient for them.
- Move instruction beyond the classroom by reaching students on the devices they use most, including smartphones.
- Improve attendance by making recorded classes available to students who missed them.
- Remove the burdens of support and maintenance through the WebEx Software-as-a-Service (SaaS) delivery model.

Cisco WebEx™ online training and meeting solutions can help primary and secondary schools adapt to a changing educational landscape. Many K–12 schools are already using WebEx® to provide dynamic e-learning opportunities, enrich classes, and improve interaction among parents, teachers, students, and administrators.

Unlock student—and teacher—potential.

Give more individual attention to each student by taking advantage of advanced WebEx® interaction features. Teachers can view students’ test answers and tailor their instruction accordingly. Students become better prepared and teachers are more attuned to the needs of individual students.

Parents can take advantage of online meeting capabilities to interact with teachers and administrators on their own schedules through virtual parent/teacher conferences and PTA meetings. And kids can have their lessons and homework delivered on the portable electronic devices they use more and more frequently.

Maximize resources.

Teachers and administrators can use online training, meetings, and web conferencing to provide more opportunities for professional

development and collaboration. They can also grow class sizes without sacrificing individualized instruction. For IT personnel, WebEx provides a SaaS delivery model that removes the burdens of support and maintenance. This frees in-demand tech staff to focus on what matters most: using technology to increase learning opportunities.

Bring everyone online.

Get teachers, students, parents, administrators, and school staff working together to make sure that students have access to the best educational opportunities.

By taking advantage of WebEx solutions:

- Parents can track children’s progress online.
- Students can participate in online interactive study sessions.
- Teachers can record classes for students unable to attend.
- Administrators can add innovative support services for students.

Enhance learning while controlling costs.

Discover Cisco WebEx solutions for K-12 education.

Provide flexible instruction with extended reach online using Cisco WebEx solutions—and find a solution to dwindling budgets and resource constraints. Primary and secondary schools can take advantage of the following WebEx solutions:

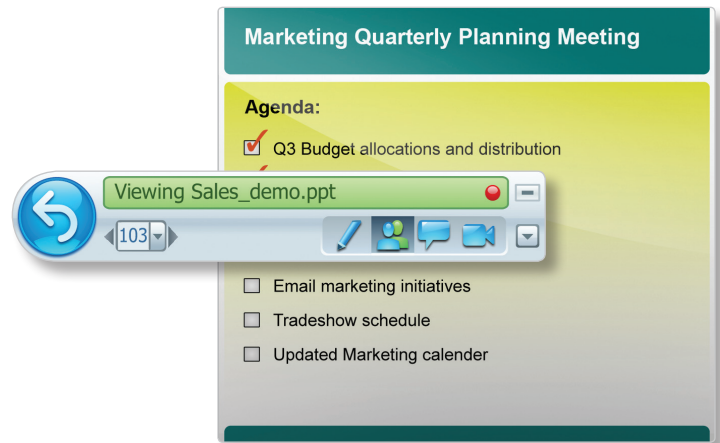

Cisco WebEx Training Center. Use interactive features like real-time testing and grading, instant feedback, assessment tracking, breakout sessions, and hands-on labs to deliver a variety of dynamic e-learning opportunities to K-12 students.

Cisco WebEx Meeting Center. Meet online in real time with parents, staff, and students to keep everyone on the same page without requiring them to assemble in one place.

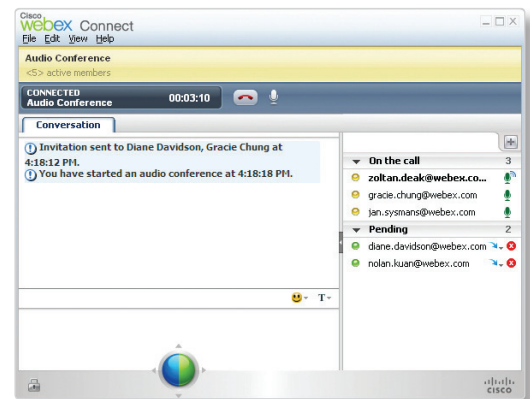

Cisco WebEx Support Center. Support remote users as if they were in the same room, viewing and controlling remote desktops and applications, installing and transferring files, recording sessions, and applying patches and updates in real time.

Cisco WebEx Event Center. Cast a wider net. Use WebEx Event Center to facilitate and manage online conferences and interactive events, bringing together geographically dispersed students, teachers, parents, and administrators.

Cisco WebEx Connect. Streamline communications and accelerate decision-making. Ensure that education continues after the school day ends by taking advantage of presence, enterprise IM, audio, VoIP, video, file sharing, and integrated web conferencing to collaborate across time zones and platforms.

Give attendees a clear, full-screen view with a discreet toolbar for navigation.

Drive business decisions faster. See who's available to meet immediately, then click on that person's name to start an instant audio or video conference.

Our full suite of applications is regularly updated to meet the latest system compatibility needs. Please visit **www.webex.com** to see system requirements.
